ASSIGNMENT

In consideration of the sum of One Dollar (\$1.00) or equivalent and other good and valuable consideration paid to each of the undersigned inventor, receipt of which is hereby acknowledged, Yingzhe QIAN hereby sells and assigns to WuXi AppTec (Wuhan) Co., Ltd. (hereafter referred to as the "Assignee"), a corporation formed under the laws of China, having an office and place of business at 666 Gaoxin Road, East Lake High-Tech Development Zone, Wuhan 430075, China, his/her entire right, title and interest, including the right to sue for past infringement and to collect for all past, present and future damages, for the United States of America (as defined in 35 U.S.C. § 100) and throughout the world,

(a) in the invention(s) known as "METHODS FOR PREPARING BILE ACIDS," for which application has an international filing date of August 3, 2018 (also known as U.S. Appl. No. 16/636,260), in any and all non-provisional applications therefrom, in any and all Letters Patent(s) granted from such non-provisional applications,

(b) in the invention(s) known as "METHODS FOR PREPARING BILE ACIDS," for which application has an international filing date of August 3, 2018 (also known as International Appl. No. PCT/CN2018/098535), in any and all national phase and non-provisional applications therefrom, in any and all Letters Patent(s) granted from such national phase and non-provisional applications,

(c) in the invention(s) known as "METHODS FOR PREPARING BILE ACIDS," for which application has an international filing date of August 3, 2017 (also known as International Appl. No. PCT/CN2017/095784), in any and all national phase and non-provisional applications therefrom, in any and all Letters Patent(s) granted from such national phase and non-provisional applications,

(d) in any and all applications that claim the benefit of or claim priority to the patent application listed above in parts (a), (b), and (c), including non-provisional applications, continuing (continuation, divisional, or continuation-in-part) applications, reissues, extensions, renewals and reexaminations of the patent application or Letters Patent therefor listed above in part (a), to the full extent of the term or terms for which Letters Patents issue, and

(e) in any and all inventions described in the patent application listed above in part (a), and in any and all forms of intellectual and industrial property protection derivable from such patent application, and that are derivable from any and all continuing applications, reissues, extensions, renewals and reexaminations of such patent application, including, without limitation, patents, applications, utility models, inventor's certificates, and designs together with the right to file applications therefor; and including the right to claim the same priority rights from any previously filed applications under the International Agreement for the

Protection of Industrial Property, or any other international agreement, or the domestic laws of the country in which any such application is filed, as may be applicable;

all such rights, title and interest to be held and enjoyed by the above-named Assignee, its successors, legal representatives and assigns to the same extent as all such rights, title and interest would have been held and enjoyed by the inventor had this assignment and sale not been made.

The undersigned inventor agrees to execute all papers necessary in connection with the application(s) and Letters Patent(s) described above, and any non-provisional, continuing (continuation, divisional, or continuation-in-part), reissue, reexamination or corresponding application(s) thereof, and also to execute separate assignments in connection with such application(s) as the Assignee, its successors, legal representatives and assigns may deem necessary or expedient.

The undersigned inventor agrees to execute all papers necessary in connection with any ex parte and inter partes proceedings and patent enforcement actions (judicial or otherwise) related to the application(s) or Letters Patent(s) or any non-provisional, continuing (continuation, divisional, or continuation-in-part), reissue or reexamination application(s) thereof and to cooperate with the Assignee, its successors, legal representatives, and assigns in every reasonable way possible in obtaining evidence and going forward with such ex parte and inter partes proceedings and patent enforcement actions.

The undersigned inventor agrees to perform all affirmative acts at Assignee's, its successors', legal representatives', and assigns' request and expense that may be necessary to obtain or ensure a grant of a valid patent(s).

The undersigned inventor hereby represents that he/she has full right and authority to convey the entire interest herein assigned, and that Assignor has not executed, and will not execute, any agreement in conflict therewith.

The undersigned inventor hereby grants the patent practitioners associated with **CUSTOMER NUMBER 137713** the power to insert in this assignment any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

The undersigned inventor hereby represents that he/she understands that the patent practitioners associated with **CUSTOMER NUMBER 137713** are the legal representatives of, and attorneys for, Medytox Inc., and are NOT the legal representatives of, and attorneys for, the inventors.

IN WITNESS WHEREOF, executed by the undersigned inventors on the date opposite his/her name.

Date: May 12, 2020 Signature of Inventor: Yingzhe Qian
