**ASSIGNMENT BY INVENTORS**  
**2016P-135-US (1506.660)**

PATRICK E. OZIMEK, OLIVER C. HAYA, PETER M. SMIT and  
MARC KOEPEL, (Inventors) have invented **METHOD AND APPARATUS  
FOR IDENTIFYING A MOVER ON A CLOSED TRACK**, (the Invention), as  
described in:

U.S. Patent Application No. 17/154,794, filed January 21, 2021 (the  
Application).

Rockwell Automation Technologies, Inc. (Assignee), an Ohio Corporation  
with a principal place of business at 1 Allen-Bradley Drive, Mayfield Heights,  
Ohio 44124, is desirous of acquiring the entire right, title, and interest in the  
Inventions and the Application. Any reference in this assignment to the Assignee  
encompasses the successors, legal representatives, and assigns of the Assignee.

For good and sufficient consideration, the receipt of which is hereby  
acknowledged, Inventors hereby transfer to Assignee the entire right, title, and  
interest in the Inventions and the Application, and in all patents and patent  
applications covering the Inventions or resulting from the Application, including  
all provisional, non-provisional, continuation, continuation-in-part, divisional,  
reissue, reexamination, foreign, and PCT applications, and any patents resulting  
from these applications, in the United States and in all foreign countries, including  
in particular the rights of priority originating from the Application.

Inventors hereby represent that, except for any rights that have arisen to  
Assignee under law or that have already been transferred to Assignee, Inventors  
have the right to convey the entire right, title, and interest in the Inventions and  
the Application, and that no assignment, sale, agreement, or encumbrance has  
been made or will be made which would conflict with this assignment.

Inventors hereby authorize the Director of the U.S. Patent and Trademark  
Office and the empowered officials of all other governments to issue all patents  
covering the Inventions or resulting from the Application, to the Assignee.

Inventors hereby agree to carry out in good faith the intent and purpose of  
this assignment; to communicate to Assignee any facts relating to the Inventions,  
the Application, and any patents and applications that cover the Inventions or  
result from the Application; to testify in any legal proceeding when requested to

do so; to execute all rightful oaths, assignments, powers of attorney and other papers; to sign all lawful papers, execute all necessary assignment papers to cause any patents resulting from the Application or covering the Inventions to be issued to Assignee; and to generally do everything necessary or desirable to aid the Assignee in attaining, perfecting title in, and enforcing proper protection for the Inventions, the Application and any patents and applications resulting from the Inventions or the Application, in the United States and in all other countries, all without further consideration, but at the expense of the Assignee.

Inventors hereby grant to Assignee the right to sue for past, present and future infringement of any patents covering the Inventions or resulting from the Application.

Inventors grant to Assignee and Assignee's attorneys the power to insert into this assignment any information necessary to comply with the rules of the United States Patent and Trademark Office for recordation of this Assignment.

The Inventors have executed this assignment as of the date(s) indicated below:

Date: 08/01/17

Patrick E. Ozimek
