PLACEMAT ANCHOR AND
TEETHING SPOON

Said assignment includes the entire right, title, and interest in all provisional, non-provisional, divisional, continuation, reissue, substitute, reexamination, post-grant review, international, and foreign applications that are filed on any of said inventions and improvements, as well as all United States and foreign patents, utility models, and design registrations granted for any of said inventions or improvements. Said assignment further includes the right to claim priority based on the filing date of said application(s) under the International Convention for the Protection of Intellectual Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes. Assignor authorizes Assignee to apply in all countries in Assignor's name or in its own name for patents, utility models, design registrations and like rights of exclusion and for inventors' certificates for said inventions and improvements; and Assignor agrees for itself and its respective heirs, legal representatives and assigns, without further compensation, to perform such lawful acts and to sign such further applications, assignments, Preliminary Statements and other lawful documents as the Assignee may reasonably request to effectuate fully this assignment.

Assignor further authorizes Assignee to insert on this Assignment (where indicated) the application serial number and filing date, when known, of application(s) referenced herein.

If any provision of this assignment is held by any court to be unenforceable, such provision shall be interpreted to accomplish the objectives of the original provisional to the fullest extent allowed by law and the remainder of this assignment shall remain in full force and effect.
