PATENT RIGHTS ASSIGNMENT

This Patent Rights Assignment (this "Assignment") by and between Anthony A. Parker and Joseph J. Marcinko, residing at 10 Columbine Circle, Newtown, PA 18940; and 66 Highbridge Lane, West Deptford, NJ 08086; respectively (hereinafter referred to as "Assignors") and Biopolymer Technologies, Ltd., an Israeli corporation with its principal place of business at 6 Aryeh Dulchin St. Tel Aviv, Israel (hereinafter referred to as "Assignee").

WHEREAS, Assignors have invented certain new and useful improvements in PROTEIN-CONTAINING ADHESIVES, AND MANUFACTURE AND USE THEREOF, set forth in a International application for Letters Patent of the United States, already filed on September 7, 2012 as International Application No. PCT/US12/54124 (the "Patent Rights") and the invention(s) described and/or claimed in the Patent Rights (the "Inventions"); and

WHEREAS, Assignors and Assignee are parties to that Letter of Intellectual Property Sale and Assignment, dated November 1, 2010 (hereinafter referred to as the "Letter of Intellectual Property Sale and Assignment") pertaining to the sale and assignment of the Inventions and Patent Rights;

NOW, THEREFORE, in exchange for the consideration stated in the Letter of Intellectual Property Sale and Assignment, the receipt and sufficiency of which is hereby acknowledged:

Assignors do hereby sell, assign, convey and transfer unto Assignee and its successors, assigns, and legal representatives, Assignors' entire right, title and interest in and throughout the world in and to the Inventions, together with Assignors' entire right, title and interest in and to the Patent Rights and such other patents as may issue thereon or claim priority under United States law or international convention, including but not limited to non-provisionals, continuations, divisionals, reissues, reexaminations, extensions, and substitutions of patents and patent applications within the Patent Rights or such other patents, and any right, title and interest Assignors may have in applications to which the Patent Rights claim priority; the Inventions and the Patent Rights to be held and enjoyed by Assignee for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which said patents may be granted as fully and entirely as the same would have been held by Assignors had this assignment and sale not been made; and Assignors hereby convey all of their rights arising under or pursuant to any and all United States laws and international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for patent, including but not limited to any cause(s) of action and damages accruing prior to this assignment. Assignors hereby acknowledge that this assignment, being of Assignors' entire right, title and interest in and to the Inventions and the Patent Rights carries with it the right in Assignee to apply for and obtain from competent authorities in all countries of the world any and all patents by attorneys and agents of Assignee's selection and the right to procure the grant of all patents to Assignee in its own name as assignee of Assignors' entire right, title and interest therein.

Assignors hereby further agree for their self and their successors, assigns, agents, and legal representatives to execute upon request any other lawful documents and likewise to

perform any other lawful acts which may be deemed necessary to secure fully the Patent Rights to Assignee, its successors, assigns, and legal representatives, as well as to third parties at the request of Assignee including the execution of documents (including, without limitation, petitions, specifications, oaths, assignments, disclaimers, declarations and affidavits) relating to non-provisional, substitution, continuation, divisional, reissue, reexamination, or corresponding foreign or international patent applications within the Patent Rights, as requested by Assignee, and generally do everything possible to aid Assignee, its successors, assigns and legal representatives to obtain, record, maintain, and enforce full protection for the Inventions in all countries, but in each instance at Assignee's reasonable expense.

Assignors hereby warrant that they have not knowingly conveyed to others any rights in the Patent Rights or the Inventions to use the same or to make, use or sell anything embodying or utilizing any of the Inventions, and that they have good right to assign the Inventions and the Patent Rights without encumbrance.

Assignors do hereby authorize the Director of the United States Patent & Trademark Office, and the empowered officials of all other governments whose duty it is to record patents, applications and title thereto, to record the Patent Rights and title thereto as the property of Assignee, its successors, assigns, or legal representatives in accordance with the terms of this instrument.

Assignors do hereby further authorize and request the Director of the United States Patent and Trademark Office and the empowered officials of all other governments to issue such Patent Rights or patents as shall be granted upon the Patent Rights, or applications based thereon, to Assignee, its successors, assigns, or legal representatives.

Assignors hereby grant the following individuals the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document:
