**Recitals:**

(A) The Inventors are the joint inventors of the invention entitled BENZIMIDAZOLONE DERIVED INHIBITORS OF BCL6 ("the Invention") for which the United Kingdom Patent Application ("the Priority Application") and the international patent applications claiming priority from the Priority Application ("the PCT Applications") set forth in the schedule hereto have been filed; and

(B) The Inventors were at all relevant times employees of Employer and for the purposes of commercial exploitation the Inventors and Employer (the "Assignors") have agreed to assign jointly to the First Assignee and the Second Assignee for the consideration hereinafter mentioned any and all rights title and interest they may have in to and under the Invention, the Priority Application and the PCT Applications and all national and regional patent applications derived therefrom and any and all other applications linked by priority thereto.

**Operative provisions:**

In consideration for the payment of one pound (£1.00) by the First Assignee and the Second Assignee to the Assignors, the receipt and sufficiency of which is hereby acknowledged by the Assignors:

**1** The Assignors hereby jointly assign to the First Assignee and the Second Assignee absolutely and free from encumbrances:

**1.1** all their respective rights title and interest in all countries of the world in to and under the Invention, the Priority Application and the PCT Applications and all national and regional patent applications derived therefrom and any and all other applications linked by priority thereto and any and all divisionals, continuations and continuations-in-part of any of the aforesaid applications and any and all patents that may be granted pursuant thereto for the full period thereof including any re-issues, re-examinations, renewals, extensions and Supplementary Protection Certificates and including all rights and powers arising or accrued therefrom including the right to sue for damages and other remedies in respect of any infringement of any such rights before on or after the date hereof and to retain any damages obtained as a result of such action;

**1.2** all such rights as they may have to apply for prosecute and obtain patents and other intellectual property protection anywhere in the world in respect of the Invention to the intent that the grant of any patents or other intellectual property protection for the Invention shall be in the

joint names of and shall vest in the First Assignee or its successors or assigns and the Second Assignee or its successors or assigns; and

1.3 all such rights as they may have to claim priority from the Priority Application in any and all applications for patent protection for the Invention, such rights to be enjoyed by the First Assignee and the Second Assignee with effect from the date of filing of the Priority Application;

to the intent that the First Assignee and the Second Assignee shall have and hold the rights title and interest hereby assigned as fully and entirely as the same would have been held and enjoyed by the Assignors had this assignment not been made.

2 The Assignors hereby GRANT the First Assignee and the Second Assignee the power to insert in the Schedule to this assignment any further identification of any patent applications in any countries or regions of the world which fall within the scope of clause 1 above, as may be necessary or desirable in order to comply with the rules of the any Patent Office for recordation of this document.

3 The Assignors hereby UNDERTAKE that at the request and joint cost of the First Assignee or its successors or assigns and the Second Assignee or its successors or assigns they will at all times hereafter promptly do all such acts and execute all such documents (including but not limited to documents required to be signed by or on behalf of inventors in the course of any and all Canadian and United States patent applications which relate to the Invention and any and all divisionals, continuations and continuations-in-part of any such applications) as may be reasonably necessary or desirable to secure the vesting in the First Assignee or its successors or assigns and the Second Assignee or its successors or assigns of all rights title and interest assigned to the First Assignee and the Second Assignee hereunder and to confirm the title of the First Assignee or its successors or assigns and the Second Assignee or its successors or assigns to all such rights title and interest and to reasonably assist in the resolution of any question concerning the Invention or any Applications for patent or other intellectual property protection for the Invention or any intellectual property protection granted pursuant to any such application.

4 The Assignors hereby request the relevant authorities in all countries of the world to issue any patents granted for the Invention in the joint names of the First Assignee or its successors or assigns and the Second Assignee or its successors or assigns in accordance with this assignment.

5 The Assignors give no warranty and make no representation whatsoever in relation to the Invention and/or the rights assigned hereunder.

6 This assignment and undertaking shall be binding upon the heirs, executors, administrators, successors and/or assigns of the Assignors and shall enure to the benefit of any heirs, executors, administrators, successors and/or assigns of the First Assignee and/or the Second Assignee.

7 This Agreement shall be governed by English law and the parties hereby submit to the exclusive jurisdiction of the courts of England.

IN WITNESS WHEREOF the parties hereto have executed this assignment and undertaking
