ASSIGNMENT AGREEMENT

This Assignment Agreement (this "Assignment") is effective as of December 31, 2019 (the "Effective Date") by and between Otto Bock HealthCare North America, Inc., a Minnesota corporation, with its principal place of business at 11501 Alterra Parkway, Suite 600, Austin, TX 78758 (the "Assignor") and Otto Bock HealthCare LP, a Minnesota limited partnership, with its principal place of business at 11501 Alterra Parkway, Suite 600, Austin, TX 78758 (the "Assignee").

WHEREAS, Assignor is the legal and beneficial owner of certain assets, including Intellectual Property (as such term is defined herein and set forth on Exhibit A) and legal agreements pursuant to that certain BMT Agreement of Merger dated December 11, 2019 (the "BMT Merger Agreement") whereby Assignor merged with BionX Medical Technologies, Inc., a Delaware corporation with Assignor surviving the merger;

WHEREAS, Assignor has agreed to transfer, convey, assign and deliver to Assignee, and Assignee has agreed to acquire and accept from Assignor, all of Assignors' right, title and interest in and to all the Intellectual Property (as such term is defined herein and as set forth on Exhibit A) and legal agreements as set forth on Exhibit B;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows:

1. "Intellectual Property" means any and all of the following that Assignor assumed and received by and through the Merger Agreement as they exist throughout the world: (a) patents, patent applications, patent disclosures and inventions, (b) trademarks, service marks, trade dress, trade names, logos and corporate names (in each case, whether registered or unregistered) and registrations and applications for registration thereof together, to the extent applicable, with all of the goodwill associated therewith, (c) copyrights (registered or unregistered) and registrations and applications for registration thereof, (d) computer software, data, data bases and documentation thereof, (e) trade secrets and other confidential information (including, without limitation, ideas, formulas, compositions, inventions (whether patentable or unpatentable and whether or not reduced to practice), know-how, manufacturing and production processes and techniques, research and development information, drawings, specifications, designs, plans, proposals, technical data, copyrightable works, financial and marketing plans and customer and supplier lists and information), (f) World Wide Web addresses and domain name registrations, (g) works of authorship including, without limitation, computer programs, source code and executable code, whether embodied in software, firmware or otherwise, documentation, designs, files, records, data and mask works and any rights in semiconductor masks, layouts, architectures or topography, and (h) goodwill, franchises, licenses, permits, consents, approvals and claims of infringement and misappropriations against third parties, including but not limited to the Intellectual Property set forth on Exhibit A.
2. Assignor grants, sells, assigns, transfers and conveys to Assignee, its successors, assigns and legal representatives, all right, title and interest in, to and under Assignor's Intellectual Property throughout the United States of America, its territories and all foreign countries,

including the right to claim priority under the applicable laws of the United States, any applicable foreign country's law and all applicable international conventions, along with all applicable rights to sue for infringement of any Intellectual Property, whether the basis for such suits arise prior to or subsequent to the date of this Assignment, the same to be held and enjoyed by Assignee, its successors, assigns and other legal representatives, from and after the date herein above written, as fully and entirely as the same would have been held and enjoyed by Assignor had this Assignment not been made.

3. Assignor does hereby sell, assign and transfer to Assignee, its successors, assigns, and legal representatives, the full and exclusive right to said invention and said application and to any and all inventions described in said invention and said application and to any and all inventions described in said application for the United States, its territorial possessions and all foreign countries, and the entire right, title and interest in and to any and all Letters Patent which may be granted therefor in the United States, its territorial possessions and all foreign countries; and in and to any and all provisionals, continuations-in-part, continuations, divisions, substitutes, reissues, extensions thereof, and all other applications for Letters Patent relating thereto which have been or shall be filed in the United States, its territorial possession and/or any foreign countries, and all rights, together with all priority rights, under any of the international conventions, unions, agreements, act, and treaties, including all future conventions, unions, agreements, acts, and treaties;
4. Assignor hereby authorizes the Commissioner of Patents and Trademarks of the United States and other empowered officials of the United States Patent and Trademark Office, all appropriate domain name registrars and empowered officials thereof, all empowered officials of the United States Copyright Office, and similarly empowered officials of the equivalent foreign trademark, copyright or other applicable offices to transfer all registrations or applications for the Intellectual Property to Assignee as assignee of the entire right, title and interest therein or otherwise as Assignee may direct, in accordance with this Assignment, and to issue Assignee all registrations which may have or may issue, in accordance with this Assignment.
5. Assignor further hereby covenants and agrees that Assignor will, at any time, upon request, execute and deliver any and all documents that may be necessary or desirable to perfect the right, title and ownership of said Intellectual Property to Assignee, its successors, assigns or other legal representatives and that if Assignee, its successors, assigns or other legal representatives shall desire to file any type of intellectual property applications or to secure any other such ownership protection, Assignor will, upon request, sign all papers, make all rightful oaths and do all lawful acts requisite for the filing of any type of intellectual property applications or efforts to secure any other such ownership protection, without further compensation, but at the expense of said Assignee, its successors, or other legal representatives.
6. Assignor hereby assigns the legal agreements set forth in Exhibit B.
7. This Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

8. This Assignment may be executed in counterparts, and when so executed, each counterpart shall be deemed an original, and said counterparts shall constitute one and the same instrument.
