ASSIGNMENT OF PATENT APPLICATION

As a below named inventor, I hereby submit this Assignment of Patent Application. I hereby authorize and request the attorneys of record in the Application to insert in this Assignment of Patent Application the filing date and serial number of the Application when officially known, and if needed the date of execution of this Assignment.

ASSIGNMENT

WHEREAS, I:

Eugene Gore, being a citizen and resident of the United States of America, having an address at 251 W. Millers Road, Des Plaines, Illinois 60016 have made new and useful processes, machines, articles of manufacture, compositions of matter, ornamental designs and/or improvements in United States Application No. 62/473,129, filed on March 17, 2017, entitled **Method and Apparatus for Powder System Recycler Module For Automated Composite-Based Additive Manufacturing Machine** (the "Application"), said Application being filed with this Assignment.

WHEREAS, **Impossible Objects, LLC**, having a place of business at 3455 Commercial Avenue, Northbrook, Illinois 60062 and who, together with its successors and assigns ("**Assignee**"), is desirous of acquiring the title, rights, benefits, and privileges hereinafter recited.

NOW, THEREFORE, for valuable consideration furnished by **Assignee** to me, receipt and sufficiency of which I hereby acknowledge, I hereby, without reservations:

1. Assign, transfer, and convey to **Assignee** the entire right, title, and interest in and to the Application, the inventions and discoveries described in the Application, any and all other applications for Patents on said inventions and discoveries in other countries, including all nonprovisional, divisional, renewal, substitute, continuation, continuation-in-part and Convention applications based in whole or in part upon said inventions or discoveries and any and all Patents, reissues, and extensions of Patents granted for said inventions and discoveries, and every priority right that is or may be predicated upon or arise from said inventions and discoveries, from the Application.

2. Authorize **Assignee** to file patent applications in any or all countries for any or all said inventions and discoveries from the Application in my name or in the name of **Assignee** or otherwise as **Assignee** may deem advisable, under the International Convention or otherwise.

3. Authorize and request the Commissioner for Patents and Trademarks of the United States of America and the empowered officials of all other governments to issue or transfer all rights in the Application and Patents issuing therefrom to **Assignee**, as assignee of the entire right, title, and interest therein or otherwise as **Assignee** may direct.

4. Warrant that I have not knowingly conveyed to others any right in said inventions and discoveries or any license to use the same or to make, use, or sell anything embodying or utilizing any of said inventions or discoveries; and that I have good right to assign the same to **Assignee** without encumbrance.

5. Bind my heirs, legal representatives, and assigns, as well as myself, to do, upon **Assignee's** request and at **Assignee's** expense, but without additional consideration to me or them, all acts reasonably serving to assure that the said inventions and discoveries, the said patent applications, and the said Letters Patent shall be held and enjoyed by **Assignee** as fully and entirely as the same could have been held and enjoyed by me, my heirs, legal representatives, and assigns if this assignment had not been made; and particularly to execute and deliver the **Assignee** all lawful application documents including petitions, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by **Assignee**; to communicate to **Assignee** all facts known to me relating to said inventions and discoveries or the history thereof; to furnish **Assignee** with any and all documents, photographs, models, samples, and other physical exhibits in my control or in the control of my heirs, legal representatives, or assigns which may be useful or establishing the facts of our conception, disclosures, and reduction to practice of said inventions and discoveries; and to testify to the same in any interference, other litigation, or proceeding related hereto.

6. The assignment expressly includes the conveyance to **Assignee** of the right to bring suit for and to collect damages for any infringement of a patent issuing from the Application, and for a reasonable royalty for any use of 35 USC § 154(d) provisional rights, and for any other cause of action arising from **Assignee's** ownership of a patent issuing from the Application including any violation by others of any federal or state tort or antitrust or unfair competition laws, and in and to any and all reissues, reexaminations and extensions of a Patent from the Application, these rights to be held and enjoyed by **Assignee**, for its own use and benefit and the use or benefit of its successors and assigns, to the end of the full term of the Patent from the Application, as fully and entirely as the same would have been held and enjoyed by me, had this sale and assignment not been made.

ASSIGNMENT OF PATENT APPLICATION

As a below named inventor, I hereby submit this Assignment of Patent Application. I hereby authorize and request the attorneys of record in the Application to insert in this Assignment of Patent Application the filing date and serial number of the Application when officially known, and if needed the date of execution of this Assignment.

ASSIGNMENT

WHEREAS, I:

Eugene Gore, being a citizen and resident of the United States of America, having an address at 251 W. Millers Road, Des Plaines, Illinois 60016 have made new and useful processes, machines, articles of manufacture, compositions of matter, ornamental designs and/or improvements in United States Application No. 62/473,084, filed on March 17, 2017, entitled **Method and Apparatus for Platen Module For Automated Composite-Based Additive Manufacturing Machine** (the "Application"), said Application being filed with this Assignment.

WHEREAS, **Impossible Objects, LLC**, having a place of business at 3455 Commercial Avenue, Northbrook, Illinois 60062 and who, together with its successors and assigns ("**Assignee**"), is desirous of acquiring the title, rights, benefits, and privileges hereinafter recited.

NOW, THEREFORE, for valuable consideration furnished by **Assignee** to me, receipt and sufficiency of which I hereby acknowledge, I hereby, without reservations:

1. Assign, transfer, and convey to **Assignee** the entire right, title, and interest in and to the Application, the inventions and discoveries described in the Application, any and all other applications for Patents on said inventions and discoveries in other countries, including all nonprovisional, divisional, renewal, substitute, continuation, continuation-in-part and Convention applications based in whole or in part upon said inventions or discoveries and any and all Patents, reissues, and extensions of Patents granted for said inventions and discoveries, and every priority right that is or may be predicated upon or arise from said inventions and discoveries, from the Application.

2. Authorize **Assignee** to file patent applications in any or all countries for any or all said inventions and discoveries from the Application in my name or in the name of **Assignee** or otherwise as **Assignee** may deem advisable, under the International Convention or otherwise.

3. Authorize and request the Commissioner for Patents and Trademarks of the United States of America and the empowered officials of all other governments to issue or transfer all rights in the Application and Patents issuing therefrom to **Assignee**, as assignee of the entire right, title, and interest therein or otherwise as **Assignee** may direct.

4. Warrant that I have not knowingly conveyed to others any right in said inventions and discoveries or any license to use the same or to make, use, or sell anything embodying or utilizing any of said inventions or discoveries; and that I have good right to assign the same to **Assignee** without encumbrance.

5. Bind my heirs, legal representatives, and assigns, as well as myself, to do, upon **Assignee's** request and at **Assignee's** expense, but without additional consideration to me or them, all acts reasonably serving to assure that the said inventions and discoveries, the said patent applications, and the said Letters Patent shall be held and enjoyed by **Assignee** as fully and entirely as the same could have been held and enjoyed by me, my heirs, legal representatives, and assigns if this assignment had not been made; and particularly to execute and deliver the **Assignee** all lawful application documents including petitions, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by **Assignee**; to communicate to **Assignee** all facts known to me relating to said inventions and discoveries or the history thereof; to furnish **Assignee** with any and all documents, photographs, models, samples, and other physical exhibits in my control or in the control of my heirs, legal representatives, or assigns which may be useful or establishing the facts of our conception, disclosures, and reduction to practice of said inventions and discoveries; and to testify to the same in any interference, other litigation, or proceeding related hereto.

6. The assignment expressly includes the conveyance to **Assignee** of the right to bring suit for and to collect damages for any infringement of a patent issuing from the Application, and for a reasonable royalty for any use of 35 USC § 154(d) provisional rights, and for any other cause of action arising from **Assignee's** ownership of a patent issuing from the Application including any violation by others of any federal or state tort or antitrust or unfair competition laws, and in and to any and all reissues, reexaminations and extensions of a Patent from the Application, these rights to be held and enjoyed by **Assignee**, for its own use and benefit and the use or benefit of its successors and assigns, to the end of the full term of the Patent from the Application, as fully and entirely as the same would have been held and enjoyed by me, had this sale and assignment not been made.

ASSIGNMENT OF PATENT APPLICATION

As a below named inventor, I hereby submit this Assignment of Patent Application. I hereby authorize and request the attorneys of record in the Application to insert in this Assignment of Patent Application the filing date and serial number of the Application when officially known, and if needed the date of execution of this Assignment.

ASSIGNMENT

WHEREAS, I:

Eugene Gore, being a citizen and resident of the United States of America, having an address at 251 W. Millers Road, Des Plaines, Illinois 60016 have made new and useful processes, machines, articles of manufacture, compositions of matter, ornamental designs and/or improvements in United States Application No. 62/473,062, filed on March 17, 2017, entitled **Method and Apparatus for Stacker Module For Automated Composite-Based Additive Manufacturing Machine** (the "Application"), said Application being filed with this Assignment.

WHEREAS, **Impossible Objects, LLC**, having a place of business at 3455 Commercial Avenue, Northbrook, Illinois 60062 and who, together with its successors and assigns ("**Assignee**"), is desirous of acquiring the title, rights, benefits, and privileges hereinafter recited.

NOW, THEREFORE, for valuable consideration furnished by **Assignee** to me, receipt and sufficiency of which I hereby acknowledge, I hereby, without reservations:

1. Assign, transfer, and convey to **Assignee** the entire right, title, and interest in and to the Application, the inventions and discoveries described in the Application, any and all other applications for Patents on said inventions and discoveries in other countries, including all nonprovisional, divisional, renewal, substitute, continuation, continuation-in-part and Convention applications based in whole or in part upon said inventions or discoveries and any and all Patents, reissues, and extensions of Patents granted for said inventions and discoveries, and every priority right that is or may be predicated upon or arise from said inventions and discoveries, from the Application.

2. Authorize **Assignee** to file patent applications in any or all countries for any or all said inventions and discoveries from the Application in my name or in the name of **Assignee** or otherwise as **Assignee** may deem advisable, under the International Convention or otherwise.

3. Authorize and request the Commissioner for Patents and Trademarks of the United States of America and the empowered officials of all other governments to issue or transfer all rights in the Application and Patents issuing therefrom to **Assignee**, as assignee of the entire right, title, and interest therein or otherwise as **Assignee** may direct.

4. Warrant that I have not knowingly conveyed to others any right in said inventions and discoveries or any license to use the same or to make, use, or sell anything embodying or utilizing any of said inventions or discoveries; and that I have good right to assign the same to **Assignee** without encumbrance.

5. Bind my heirs, legal representatives, and assigns, as well as myself, to do, upon **Assignee's** request and at **Assignee's** expense, but without additional consideration to me or them, all acts reasonably serving to assure that the said inventions and discoveries, the said patent applications, and the said Letters Patent shall be held and enjoyed by **Assignee** as fully and entirely as the same could have been held and enjoyed by me, my heirs, legal representatives, and assigns if this assignment had not been made; and particularly to execute and deliver the **Assignee** all lawful application documents including petitions, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by **Assignee**; to communicate to **Assignee** all facts known to me relating to said inventions and discoveries or the history thereof; to furnish **Assignee** with any and all documents, photographs, models, samples, and other physical exhibits in my control or in the control of my heirs, legal representatives, or assigns which may be useful or establishing the facts of our conception, disclosures, and reduction to practice of said inventions and discoveries; and to testify to the same in any interference, other litigation, or proceeding related hereto.

6. The assignment expressly includes the conveyance to **Assignee** of the right to bring suit for and to collect damages for any infringement of a patent issuing from the Application, and for a reasonable royalty for any use of 35 USC § 154(d) provisional rights, and for any other cause of action arising from **Assignee's** ownership of a patent issuing from the Application including any violation by others of any federal or state tort or antitrust or unfair competition laws, and in and to any and all reissues, reexaminations and extensions of a Patent from the Application, these rights to be held and enjoyed by **Assignee**, for its own use and benefit and the use or benefit of its successors and assigns, to the end of the full term of the Patent from the Application, as fully and entirely as the same would have been held and enjoyed by me, had this sale and assignment not been made.
