PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT is made as of October 28, 2019, by and between Lottery Now, Inc., as collateral agent for the benefit of the holders of the Secured Notes of Mido Play Inc. ("Seller"), and Lottery Now, Inc., a Delaware corporation ("Purchaser"). Seller and Purchaser are parties to a certain Asset Purchase Agreement dated as of October 28, 2019 (the "Asset Purchase Agreement"). Capitalized terms used without definitions herein shall have the meanings ascribed to such terms in the Asset Purchase Agreement.

WHEREAS, Seller has agreed to sell to Purchaser, and Purchaser has agreed to acquire from Seller, all of Seller's rights, title and interest in and to the patents or patent applications identified in Schedule A attached hereto (the "Patents"); and

WHEREAS, the parties accordingly wish to execute this recordable instrument, assigning all of Seller's right, title and interest in and to the Patents to Purchaser;

NOW, THEREFORE, for valuable consideration set forth in the Asset Purchase Agreement, the receipt and sufficiency of which are hereby acknowledged, Seller and Purchaser agree as follows:

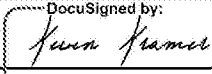

1. Seller hereby assigns, transfers and conveys to Purchaser all of its right, title and interest in and to the Patents, together with all of the goodwill of Seller's business symbolized by or associated with the Patents, and any and all income, royalties, damages and payments now or hereafter due and/or payable with respect thereto including, without limitation, damages and payments for past, present or future infringements.

2. This Patent Assignment is subject to the terms and conditions of the Asset Purchase Agreement and this Patent Assignment shall not be deemed to limit, enlarge or extinguish any obligation of Seller or Purchaser under the Asset Purchase Agreement, all of which obligations shall survive the delivery of this Patent Assignment in accordance with the terms of the Asset Purchase Agreement, and that to the extent there is any conflict between this Patent Assignment and the terms and conditions of the Asset Purchase Agreement, the Asset Purchase Agreement shall control.

3. This Patent Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
