CONFIRMATORY ASSIGNMENT

WHEREAS, I, Bernard Prandi ("I" or "Assignor") did sell, assign, and transfer my entire right, title, and interest in and to the inventions embodied in various patent applications, as specified in detail in Exhibit A ("the Inventions"), to Memometal Technologies ("Assignee"), having offices at Campus de Ker Lann, Rue Blaise Pascal, F-35170 Bruz, France, in various assignments recorded with the United States Patent & Trademark Office as specified in Exhibit A ("the assignments"), such that ownership would reside in the Assignee.

WHEREAS, certain of the assignments do not specify the date on which I executed such assignments.

Now, THEREFORE, in consideration of the sum of one dollar (\$1.00), the receipt whereof is acknowledged, and other good and valuable consideration, I as Assignor hereby confirm that the assignments were assignments of the Inventions to Assignee. If and to the extent that I did not previously transfer all right, title and interest in the Inventions through the assignments, *nunc pro tunc*, I hereby assign, transfer and convey to Assignee, and the successors and assigns of Assignee, my entire right, title and interest in and to the Inventions, and in and to any and all divisions, reissues, reexaminations, continuations and extensions thereof, including any and all foreign counterparts and/or international applications related thereto, all said rights to be held and enjoyed by Assignee for its own use and enjoyment and for the use and enjoyment of its successors and assigns to the full end of the term or terms for which said Inventions may or have been granted, including the right to sue for and collect past damages for infringement or misappropriation of any rights in and to the Inventions, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment, transfer and sale had not been made.

Nothing in this assignment shall be construed to supersede or otherwise override, in whole or in part, any assignment or transfer by Assignee after the recorded dates of the respective assignments specified in Exhibit A.
