WHEREAS, persons employed by or otherwise obligated to assign their rights to Assignor contributed to embodiments described in the patent applications identified on Exhibit A (the "Assigned Patent Rights") in conjunction with persons employed by or otherwise obligated to assign their rights to Assignee;

WHEREAS, Assignor and Assignee entered into an agreement whereby Assignor agrees to assign its entire right, title and interest in the Assigned Patent Rights to Assignee;

NOW, THEREFORE, for and in consideration of good and valuable consideration paid by Assignee to Assignor, the receipt and sufficiency of which is hereby acknowledged by Assignor, Assignor has sold, assigned and transferred, and by these presents does hereby sell, assign and transfer unto the said Assignee, its successors and assigns, Assignor's entire right, title and interest in and to said Assigned Patent Rights, as well as any and all applications claiming priority to said Assigned Patent Rights, including all divisions, continuations or renewals thereof, and the Letters Patent, both foreign and domestic, that may or shall issue, therefrom including all reissues or extensions of such patents including all of its rights under the Paris Convention for the Protection of Industrial Property ("the Paris Convention") and further including the right to sue, counterclaim and recover for past, present and future infringement of the rights assigned or to be assigned, as fully and entirely as the same would have been held by the Assignor if this assignment had not been made, and Assignor does hereby authorize and request the Commissioner of Patents to issue said Letters Patent to the above mentioned Assignee in accordance herewith.
