ASSIGNMENT

WHEREAS, Baja Designs, Inc., a California corporation, having a principal address at 185 Bosstick Boulevard, San Marcos, California 92069 (hereinafter referred to as ASSIGNOR), is the current owner of U.S. Design Patent No. D564,683, issued March 18, 2008; and

WHEREAS, Bestop Baja, LLC, a Delaware limited liability company, having a principal address at 185 Bosstick Boulevard, San Marcos, California 92069 (hereinafter referred to as ASSIGNEE), is desirous of acquiring the entire right, title, and interest in and to any letters patent that have been or may be granted therefor in the United States and in any and all foreign countries;

NOW, THEREFOR, in exchange for good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNOR hereby sells, assigns and transfers unto said ASSIGNEE, the entire right, title and interest in and to said inventions, said applications and any and all letters patent which have been or may be granted for said inventions in the United States of America and its territorial possessions and in any and all foreign countries, and in any and all non-provisional applications, divisions, reissues and continuations, continuations-in-part thereof, including the right to file foreign applications directly in the name of ASSIGNEE and to claim priority rights deriving from corresponding United States application(s) to which said foreign applications are entitled by virtue of international convention, treaty or otherwise, said inventions, applications and all letters patent on said inventions to be held and enjoyed by ASSIGNEE and its successors and assigns as fully and entirely as the same would have been held and enjoyed by ASSIGNOR had this assignment, transfer and sale not been made. ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks to issue and assign all letters patent on said inventions to ASSIGNEE.

ASSIGNOR does hereby further agree and promise to execute all instruments and render all such assistance as ASSIGNEE may request in order to: make and prosecute any and all applications on the inventions, maintain and enforce any and all patents on the inventions, and confirm in ASSIGNEE legal title to the inventions and all applications and patents on the inventions in the United States and foreign countries, all without charge to ASSIGNEE but at no expense to me. In the event that ASSIGNEE is unable for any reason, after reasonable effort, to secure my signature on any document needed in connection with the actions specified in this

paragraph, or to otherwise perfect in ASSIGNEE the entire right, title, and interest in and to the inventions, ASSIGNOR hereby irrevocably designates and appoints the ASSIGNEE and its duly authorized officers and agents as my agent and attorney in fact, to act for and on my behalf to execute, verify and file any such documents and to do all other lawfully permitted acts to further the purposes of this assignment with the same legal force and effect as if executed by me. ASSIGNOR hereby waives and quitclaims to the ASSIGNEE any and all claims, of any nature whatsoever, which ASSIGNOR now or may hereafter have for infringement of any proprietary rights assigned to the ASSIGNEE, including the right to sue and collect damages from such infringement.

If any provision of this assignment is held by any court to be unenforceable, such provision shall be interpreted to accomplish the objectives of the original provision to the fullest extent allowed by law, and the remainder of this assignment shall remain in full force and effect.

EXECUTED at Young (city), Arizona (state), on 2-1-21 (date).
