ASSIGNMENT

Between

The Assignor

Cirea AB 556815-2374

Tunavägen 11, 181 65 Lidingö, Sweden, hereinafter referred to as the Assignor

AND

The Assignee

KTH Holding Aktiebolag, 556498-0455

Teknikringen 1 100 44 Stockholm, Sweden, hereinafter referred to as the Assignee

The Assignor and the Assignee are respectively referred to as Party, and jointly as Parties.

Preamble

The Assignor is the owner of an invention which relates to a method and system for radiation detection hereinafter referred to individually and jointly as the Inventions. The Inventions has been the subject of a Swedish Patent application No. 1830201-8, filed on June 25, 2018 and a PCT Patent Application No. PCT Patent Application No. PCT/SE2019/050609, filed on June 25, 2019, all filed under the title "RADIATION DETECTING SYSTEM AND METHOD". Subsequently also the subject of a US application No 17/255143, claiming priority from the previous SE and PCT patent applications.

The patent applications/patents in Appendix 1 are referred to individually and jointly as The Patent Rights

The Assignee, a company focused on supporting the commercialization of research done within KTH, by investing capital and resources for the development and commercialization of results, ideas, and intellectual property rights.

On April 20, 2020 the Parties entered into a Commercialization Agreement, CA, giving the Assignee an option right to request the transfer of the ownership of the Inventions and the Patent Rights from the Assignor to the Assignee. By virtue of the CA, the Assignee hereby claims its option right and the Assignor agrees to assign and transfer the Patent Rights to the Assignee.

Considering this, the Parties agree as follows.

1. As per Dec 17, 2020, the Assignor transfers and assigns to the Assignee all of its right, title and interest in and to the The Patent Rights, and the Inventions disclosed therein, including the right to claim priority, all divisionals, continuation and continuation in part applications, re-examinations, reissues, substitutions or

extensions, including without limitation US Patent Term Extensions, European Supplementary Protection Certificates or equivalent thereof and any and all patents issuing from any of the foregoing applications and all patents and patent applications anywhere in the world, that, at any time, claimed priority from any of the foregoing Patent Rights

2. all its accrued rights to claim relief from third parties in respect of infringement or unlawful use of the Inventions disclosed in the Patent Rights, and the Patent Rights.
3. The Assignor assigns the Patent Rights free of charge as a consideration will follow from the CA once the Patent Rights are being commercialized.
4. The Assignor warrants that she is the rightful owner of the above-mentioned Inventions and Patent Rights and that there is neither pledge nor license granted for the same and that there is no pending or ongoing dispute relating to the inventions or the Patent Rights.
5. The Assignor shall not be held liable and/ordered to compensate The Assignee should the Inventions or The Patent Rights or any right included therein, be finally decided by court or an administrative authority to infringe another right, be declared void or be the subject to a claim based on prior use.
6. The Assignor undertakes to sign, within four (4) weeks from reception, all documents required by the Assignee to enable the same to enjoy the full benefit of the rights assigned, including having the rights registered in the name of The Assignee. All expenses, legal fee included, for such registrations shall be borne by The Assignee.
7. This Agreement shall be governed by Swedish law, excluding its conflict of law principles.
8. Any dispute, controversy or claim arising out of or in connection with this Agreement, or the breach, termination or invalidity thereof shall be settled by a general court in Sweden.

The Agreement has been executed digitally wherein each Party has taken a copy each.
