WHEREAS, I, Jonathan Michael Bosanac, residing in San Francisco, California, am the original co-inventor of the invention disclosed in the above-identified application for a United States Letters Patent;

WHEREAS, Netskope, Inc., a corporation having a principal place of business at 2445 Augustine Drive, 3rd Floor, Santa Clara, California 95054, hereinafter referred to as "Netskope," is desirous of acquiring an interest in the invention and application and in any United States Letters Patent and Registrations which may be granted on the same;

For one dollar and/or any bonus to the inventor and other good and valuable consideration, I have assigned, and by these presents do assign to Netskope all right, title, and interest in and to the invention and application and to all foreign counterparts (including patent, utility model, and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on any patent application claiming priority from the same in the United States and all countries throughout the world, and to claim the priority from the application as provided by the Paris Convention. The right, title, and interest is to be held and enjoyed by Netskope and Netskope's successors and assigns as fully and exclusively as it would have been held and enjoyed by me had this Assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation, or extension thereof.

I further agree that I will, without charge to me, but at Netskope's expense, (a) cooperate with Netskope in the prosecution of U.S. Patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer, and (c) perform such other acts as Netskope lawfully may request to obtain or maintain Letters Patent and Registrations for the invention and improvements in any and all countries, and to vest title thereto in Netskope or Netskope's successors and assigns.
