## PATENT SECURITY AGREEMENT

This Patent Security Agreement (this “**Patent Security Agreement**”), dated as of March 4, 2021, is made by CPG BEYOND, INC., a Delaware corporation (formerly known as and successor in interest to Canara Inc.) (“**Grantor**”) in favor of BANK OF AMERICA, N.A. (“**Secured Party**”).

### RECITALS

A. Grantor and Secured Party have entered into a Loan and Security Agreement dated as of March 4, 2021 (as amended, supplemented or otherwise modified from time to time, the “**Loan Agreement**”).

B. Under the terms of the Loan Agreement, Grantor has granted to Secured Party a security interest in, among other property, certain intellectual property of Grantor, and has agreed to execute and deliver this Patent Security Agreement, for recording with national, federal and state government authorities, including, but not limited to, the United States Patent and Trademark Office.

NOW, THEREFORE, for good and valuable consideration, the sufficiency and receipt of which are hereby acknowledged, and subject to the terms and conditions of the Loan Agreement, the Grantor hereby grants to the Secured Party a security interest in, and a lien upon, all of Grantor’s right, title and interest in and to (i) the patents (the “**Patents**”) set forth on Schedule A attached hereto, together with any reissues, continuations or extensions thereof, (ii) all products and proceeds of the Patents, (iii) all of the goodwill of the businesses with which the Patents are associated, and (iv) all causes of action, past, present and future, for infringement, misappropriation, or dilution of any of the Patents or unfair competition regarding the same.

This PATENT SECURITY AGREEMENT is made to secure the satisfactory performance and payment of all the Liabilities (as such term is defined in the Loan Agreement) of the Grantor and shall be effective as of the date of the Loan Agreement.

This Patent Security Agreement has been granted in conjunction with the security interest granted to Secured Party under the Loan Agreement. The rights and remedies of the Secured Party with respect to the security interest granted herein are without prejudice to, and are in addition to those set forth in the Loan Agreement, all terms and provisions of which are incorporated herein by reference. In the event that any provisions of this Grant of Security Interest are deemed to conflict with the Loan Agreement, the provisions of the Loan Agreement shall govern. Grantor authorizes the Commissioner for Patents and any other government officials to record and register this Patent Security Agreement upon Secured Party’s request.

This Patent Security Agreement may be executed in counterparts (and by different parties hereto in different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page to this Patent Security Agreement by facsimile or in electronic (i.e., “pdf” or “tif” format) shall be effective as delivery of a manually executed counterpart of this Patent Security Agreement.
