ASSIGNMENT OF PATENT APPLICATIONS

WHEREAS, Carlos Sakoda, a resident of the state of Washington owns all right, title, and interest in the patent applications listed in Exhibit A; and

WHEREAS, Amperity, Inc. a Delaware Corporation having a place of business at 2101 4th Ave #1960, Seattle, WA 98121 ("Assignee") desires to acquire Assignor's interest in and to said patent applications and any provisional, continuation, continuation-in-part, divisional, reissued, re-examined, and foreign applications and patents relating thereto;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by Assignor, Assignor, has sold assigned, and transferred and does hereby sell, assign, and transfer unto Assignee, and Assignee's successors and assigns, (a) the entire right, title, and interest, for the United States of America, in and to said patent applications and all the rights and privileges in any application and under any and all patents that may be granted in the U.S. for any invention(s) described in said patent applications, including but not limited to, all corresponding provisional, continuation, continuation-in-part, divisional, reissue, and reexamination applications; and (b) the entire right, title, and interest in and to any and all foreign patents and applications for any invention described in said patent applications, in any and all countries foreign to the U.S. including all rights of priority arising from them, and all the rights and privileges under any and all forms of protection, including patents, that may be granted in said countries foreign to the U.S. for them; and (c) the right to seek remedies for any and all infringements of any of the foregoing patents and to collect and retain all damages and profits and enjoy any and all remedies granted for infringements.

Assignor hereby authorizes Assignee to make any and all application for such protection in its own name and maintain such protection in any and all countries foreign to the U.S., and to invoke and claim for any application for patent or other form of protection for any said invention, without further authorization from Assignor, any and all benefits, including the right of priority provided by any and all treaties, conventions or agreements.

Assignor hereby consents that a copy of this assignment shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of Assignee to apply for protection for any invention described in said patent applications or other form of protection for any said invention and to claim the aforesaid benefit of the right of priority.

Assignor hereby consents that a copy of this assignment shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of Assignee to apply for protection for any invention described in said patent applications or other form of protection for any said invention and to claim the aforesaid benefit of the right of priority.

Assignor requests that any and all patents for any said invention be issued to Assignee in all countries foreign to the U.S., or to such nominee as Assignee may designate.

Assignor covenants and agrees that, when requested, Assignor shall, without charge to Assignee but at Assignee's expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable, or convenient in connection with patent applications, patents, or other forms of protection of any said invention, and for the defense and protection thereof if challenged in a court of law.
