Assignor further assigns to Assignee all patent convention rights in and to the above applications, including the right to claim priority from each application indicated above, in all countries throughout the world, for all such subject matter described therein. The rights assigned herein include without limitation all rights of action and rights to recover damages for past infringements and the right to reassign the rights conveyed to Assignee herein. Assignor makes no warranty as to the condition, completeness, or fitness for a particular purpose for any of the properties conveyed herein.

Assignor and Assignee agree that the doctrine of assignor estoppel shall be inapplicable to this Assignment or any of the properties conveyed hereunder. Assignor and Assignee separately covenant that Assignor expressly reserves the right to challenge the validity of any patent issued on the above applications in any forum. Nothing in this Assignment instrument is intended to convey any license rights to Assignee in any other intellectual property right of Assignor. Assignor shall not be obligated to assist Assignee in continued prosecution of the above applications or in enforcement of any patent

issuing from any of the above applications. The covenants and stipulations in this paragraph shall run with the herein-conveyed applications, and any subsequent assignment that does not acknowledge and contain these covenants and stipulations for the benefit of Assignor shall be void.

Assignor will, without charge to Assignee (but with any expense to be borne by Assignee) execute all instruments or documents required to effectuate this Assignment.

This Assignment will be effective on the date executed by both Assignor and Assignee.
