DECLARATION BY CO-INVENTOR DONALD A. BURRIS
OF
INVENTOR THOMAS D. MILLER'S OBLIGATION TO ASSIGN INVENTION TO
CORNING OPTICAL COMMUNICATIONS RF LLC AS A PROPRIETARY INTEREST
IN PATENT APPLICATION

TO BE RECORDED UNDER 37 C.F.R. § 3.11

1. I, the undersigned Donald A. Burris, am an inventor ("Declarant Inventor") on the patent application ("Present Application") identified above.
2. The other inventor on the Present Application is Thomas D. Miller ("Other Inventor").
3. Inventor Thomas D. Miller was a co-worker of mine during employment at Corning Optical Communications RF LLC at the time of conception of the invention(s) in the Present Application and as of the filing date of the Present Application.
4. To the best of my knowledge, Inventor Thomas D. Miller is presently deceased.
5. At the time of conception of the invention(s) in the Present Application and as of the filing date of the Present Application, to the best of my knowledge, Inventor Thomas D. Miller was an employee of Corning Optical Communications RF LLC and had an obligation to assign the invention(s) in the Present Application to Corning Optical Communications RF LLC.

6. At the time of conception of the invention(s) in the Present Application and as of the filing date of the Present Application, I was an employee of Corning Optical Communications RF LLC. I had an obligation to assign the invention(s) in the Present Application to Corning Optical Communications RF LLC. An assignment by me to assign the invention(s) in the Present Application to Corning Optical Communications RF LLC was executed on August 17, 2017, to the best of my knowledge.

7. I hereby declare that all declarations made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the Application or any patent issued thereon.

Donald A. Burris
