## INTELLECTUAL PROPERTY SECURITY AGREEMENT

THIS INTELLECTUAL PROPERTY SECURITY AGREEMENT (the “*IP Security Agreement*”) is made as of March 31, 2021 by IOTAS, Inc., a Delaware corporation (the “*Company*”), in favor of each of the secured parties (collectively, the “*Holders*” and, individually, a “*Holder*”) listed on the signature pages hereto, and Liberty Global Ventures Group Ltd. (“*Liberty*”), as agent for the Holders (the “*Lender Representative*”).

### RECITALS

**A.** Each Holder and the Company have executed the Secured Convertible Note and Warrant Purchase Agreement dated on or about the date hereof (the “*Purchase Agreement*”) and each Holder has been issued one or more Secured Convertible Promissory Notes (as they may be amended from time to time, each, a “*Note*” and collectively, the “*Notes*”) which are part of a series of Notes issued by the Company pursuant to the Purchase Agreement in the aggregate principal amount of up to \$4,000,000. The Notes provide for, among other things, (a) the Holders to loan certain principal amounts to the Company and (b) the execution and delivery of this IP Security Agreement for the purpose of granting the Lender Representative, for the benefit of the Holders, a security interest in the Company’s intellectual property.

**B.** Pursuant to the terms of that certain Security Agreement, dated of even date herewith, by and among the Company, the Holders and the Lender Representative (as the same may be amended, modified or supplemented from time to time, the “*Security Agreement*”), the Company has granted to the Lender Representative, for the benefit of the Holders, a security interest in all of the Company’s right, title and interest in, to or under all of the the Company’s assets. All capitalized terms used but not otherwise defined herein shall have the respective meanings assigned to them in the Security Agreement.

### AGREEMENT

**NOW, THEREFORE**, for good and valuable consideration, receipt of which is hereby acknowledged, and intending to be legally bound, the Company hereby represents, warrants, covenants and agrees as follows:

To secure the Obligations, the Company hereby grants, assigns, conveys, mortgages, pledges, hypothecates and transfers to the Lender Representative, for the benefit of the Holders on a *pari passu* basis, a security interest in all of the Company’s right, title and interest in, to and under its now existing and hereafter created intellectual property (including without limitation those copyrights, patents and trademarks listed on Exhibit A, B and C hereto), including, without limitation, all proceeds thereof (such as, by way of example but not by way of limitation, license royalties and proceeds of infringement suits), the right to sue for past, present and future infringements, all rights corresponding thereto throughout the world and all re-issues, divisions continuations, renewals, extensions and continuations-in-part thereof.

This security interest is granted in conjunction with the security interest granted to the Lender Representative, for the benefit of the Holders, under the Security Agreement. The rights and remedies of the Holders with respect to the security interest granted hereby are subject to the

terms of the Security Agreement and are in addition to those set forth in the Security Agreement, the Purchase Agreement and the Notes, and those which are now or hereafter available to the Holders as a matter of law or equity. Each right, power and remedy of the Holders provided for herein or in the Security Agreement, the Purchase Agreement and the Notes, or now or hereafter existing at law or in equity shall be cumulative and concurrent and shall be in addition to every right, power or remedy provided for herein and the exercise by the Holders of any one or more of the rights, powers or remedies provided for in this IP Security Agreement, the Security Agreement, the Purchase Agreement and the Notes, or now or hereafter existing at law or in equity, shall not preclude the simultaneous or later exercise by the Holders of any or all other rights, powers or remedies.

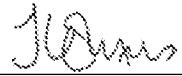

The Company represents and warrants that Exhibits A, B, and C attached hereto set forth any and all intellectual property rights in connection to which the Company has registered or filed an application with either the United States Patent and Trademark Office or the United States Copyright Office, as applicable.

This IP Security Agreement may be executed in counterparts, each of which will be deemed an original, but all of which together constitute one and the same original.
