## ASSIGNMENT OF PATENT RIGHTS

THOMAS DAVID BROOKS ("Assignor") is the sole inventor of COTTON VARIETY NG 3956 B3XF, as described in the U.S. Patent and Trademark office Serial Number: 16/747,530, filed January 21, 2020, (the "Patent Application"). AMERICOT, INC., employer of Assignor, ("Assignee") desires to acquire all rights in and to the Patent Application and the patent (and any reissues or extensions) that may be granted. Assignor desires to fulfill his obligation to assign said rights.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee all of his or her right, title, and interest in the invention and Patent Application (as well as such rights in any divisions, continuations in whole or part, or substitute applications) to Assignee for the entire term of the issued patent(s) and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part, or substitute applications) filed claiming the benefit of the Patent Application.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee. The right, title, and interest are to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Application and foreign counterparts; (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.
