This **TERMINATION AND RELEASE OF SECURITY INTEREST IN PATENTS**, dated as of March 31, 2021 (this "Release"), is granted by JPMorgan Chase Bank, N.A., in its capacity as Administrative Agent (as defined in that certain Revolving Credit Agreement, dated as of September 16, 2016, as amended, restated, supplemented or otherwise modified from time to time (the "Credit Agreement")) (such Administrative Agent, the "Releasor") in favor of Alcoa USA Corp. (the "Grantor") with respect to the Sold Patents (as defined below).

WHEREAS, the Grantor is party to a Collateral Agreement, dated as of November 1, 2016 (as amended, restated, supplemented or otherwise modified from time to time, the "Security Agreement") and to a Patent Security Agreement of even date therewith in favor of the Releasor (as amended, supplemented, restated or otherwise modified from time to time, the "Patent Security Agreement");

WHEREAS, pursuant to the Patent Security Agreement, the Grantor granted to the Releasor a security interest in all right, title and interest in, to and under certain listed patents and all reissues, continuations, divisions, continuations-in-part, renewals or extensions thereof, and the inventions disclosed or claimed therein, including the right to make, use or sell the inventions disclosed or claimed therein, including, but not limited to, the patents and patent applications listed on Schedule I attached hereto (such patents and patent applications listed on Schedule I, the "Sold Patents");

WHEREAS, pursuant to the Security Agreement, the Grantor executed and delivered to the Releasor the Patent Security Agreement, which was recorded at the U.S. Patent and Trademark Office (the "USPTO") on January 27, 2017 at Reel/Frame 041521/0521 and on February 9, 2017 at Reel/Frame 041214/0386;

WHEREAS, the Grantor has completed a sale of the Sold Patents as permitted by Section 6.05 (*Asset Sales*) of the Credit Agreement and whereas, pursuant to Section 9.19(ii) (*Release of Liens and Guarantees*) of the Credit Agreement, all security interests in the Sold Patents created by the Security Documents (as defined in the Credit Agreement), including the Security Agreement and the Patents Security Agreement (the "Patent Security Interest") shall be automatically released; and

The Releasor, on behalf of itself and the other Secured Parties, authorizes and requests the recordation of this Release against the Sold Patents with the USPTO

and any other applicable governmental authority. For the avoidance of doubt, this Release shall have no effect on any security interests created by the Security Documents other than the Patent Security Interest.

SECTION 3. Further Assurances. At the request and sole expense of the Grantor, the Releasor, on behalf of itself and the other Secured Parties, agrees to execute, acknowledge and deliver all such further instruments and to take all such further actions necessary or reasonably requested by the Grantor to carry out the purposes of this Release.

SECTION 4. Choice of Law. This Release and any claim, controversy, dispute or cause of action (whether in contract or tort or otherwise) based upon, arising out of or relating to this Release and the transactions contemplated hereby shall be construed in accordance with and governed by the laws of the State of New York without regard to any conflict of laws principles thereof that would call for the application of the laws of any other jurisdiction.
