INTELLECTUAL PROPERTY ASSIGNMENT

Inventor: Randy Beyreis

Application Number, Docket Number, and Title:

- U.S. Patent Application No. 63/006,794 – MARBLEHEAD.009P – BALLOON GUIDING SHEATH WITH INFLATION TROUGH SYSTEMS AND METHODS
 - U.S. Patent Application No. 63/006,830 – MARBLEHEAD.010P – BALLOON GUIDING SHEATH HAVING A TEXTURED SURFACE
-

The **inventor identified below** (“**Assignor**”) invented certain improvements, innovations, inventions, concepts, ideas, technologies, methods, processes, assemblies, components, devices, designs, or discoveries, (collectively hereinafter referred to as the “**Work**”) as described in the **U.S. patent applications listed above** (“**Patent Application**”).

Marblehead Medical, LLC., a Minnesota Limited Liability Company having a place of business at 753 Fox Chase Road SW in Rochester, Minnesota. (“**Assignee**”) desires to acquire all rights, title, and interest in and to the Patent Application and the Work.

Therefore, for valuable consideration, the receipt of which is hereby acknowledged, Assignor hereby assigns to Assignee 100% of Assignor’s right, title, and interest throughout the world in the Patent Application (as well as such rights in any divisions and continuations in whole or part or substitute applications) and the Work. Assignor hereby assigns to Assignee 100% of Assignor’s right, title, and interest in all foreign patent applications that have been or may be filed claiming priority to the Patent Application. Assignor hereby assigns to Assignee 100% of Assignor’s right, title, and interest in all foreign patents that may issue from foreign patent applications (as well as divisions and continuations in whole or part or substitute applications) filed claiming priority to the Patent Application. Therefore, Assignor acknowledges that Assignor has sold, assigned, conveyed, and transferred to Assignee, Assignee’s successors, and Assignee’s assigns the entire right, interest, and title throughout the world in the Patent Application and the Work, including all patent properties filed or issued upon the Patent Application and the Work, and including but not limited to:

- **U.S. Patent Application No. 63/006,794**; filed April 8, 2020; and entitled BALLOON GUIDING SHEATH WITH INFLATION TROUGH SYSTEMS AND METHODS
- **U.S. Patent Application No. 63/006,830**; filed April 8, 2020; and entitled BALLOON GUIDING SHEATH HAVING A TEXTURED SURFACE
- All nonprovisional applications claiming the benefit of or priority to at least one of the patent applications described above
- All patent applications (including U.S. applications, foreign applications, divisionals, continuations, continuations-in-part, reissues, and extensions) claiming the benefit of or priority to the Patent Application and all patents which may be granted thereon
- All patent applications and patents related to the Work
- All rights of priority based on the Patent Application and the Work

Assignor authorizes the United States Patent and Trademark Office and all foreign patent offices to issue any patents resulting from the Patent Application and the Work to Assignee. The right, title and interest is to be held and enjoyed by Assignee and Assignee’s successors and assigns at least as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to cooperate with Assignee in the prosecution of the Patent Application, foreign counterparts of the Patent Application, and any application for patent claiming priority to the Patent Application. Assignor further agrees to (a) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer; and (b) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent Application, foreign counterparts of the Patent Application, and any application for patent claiming priority to the Patent Application in any and all countries. Assignor hereby covenants and agrees to timely communicate to Assignee any facts known to the Assignor related to the Patent Application or the Work including information necessary to meet the Assignor's duty to disclose information that is material to patentability as defined in 37 CFR § 1.56. Assignor hereby covenants and agrees to do everything reasonably possible to help the Assignee seek, obtain, and enforce patent protection related to the Patent Application and the Work.

Assignor hereby assigns, conveys, and transfers to Assignee all claims for damages and all remedies (including past, present, and future damages and remedies) arising from or related to the Patent Application, the Work, and the interests assigned herein.
