do hereby sell, assign, and transfer unto:

as Assignee, and its successors, assigns and legal representatives, the entire right, title and interest, for all countries in and to certain inventions relating to the "Rotary transmission leadthrough as part of a tire pressure control system" described in application for Letters Patent of the United States number 17/211,318 filed on March 24, 2021, and all the rights and privileges under any and all Letters Patent that may be granted therefore in any and all countries, including all divisions, reissues, continuations and extensions thereof.

I hereby authorize and request my attorneys to insert the filing date and application number of said application when known.

I agree that, when requested, I will, without charge to said assignee but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for said inventions in any and all countries and for vesting title thereto in said assignee, its successors, assigns and legal representatives or nominees.
