February 8, 2013

This Intellectual Property Assignment Agreement is entered into by and between **GROUPON-BRITELY, LLC**, a Delaware limited liability company ("Purchaser" or "Assignee"), and **MASHLOGIC, INC.**, a Delaware corporation ("Seller" or "Assignor").

### RECITALS

A. Pursuant to that certain Asset Purchase Agreement, dated as of the date hereof (the "Asset Purchase Agreement"), Purchaser is acquiring certain assets, including all of the Intellectual Property, of Seller. Capitalized terms not defined herein shall have the same meaning as given to them in the Asset Purchase Agreement.

B. In connection with the execution of the Asset Purchase Agreement and as a condition to closing of the transactions contemplated by the Asset Purchase Agreement, Seller desires to assign to Purchaser all of Seller's right, title and interest in, to or under any and all of Seller's Intellectual Property, whether registered or unregistered, including, but not limited to, all of the intellectual property listed in Schedule A attached hereto (collectively, the "Intellectual Property Assets"), and Purchaser desires to obtain all of Seller's right, title and interest in, to or under any and all Intellectual Property Assets under the terms of the Asset Purchase Agreement and as provided herein.

NOW, THEREFORE, the parties hereby agree as follows:

1. Assignment. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby sell, assign, and transfer to Assignee all its worldwide right, title and interest, including all common law rights in, to and under all of the Intellectual Property Assets, together with any goodwill of the business symbolized by any marks or names thereof including the relevant portion of Assignor's business to which the marks and names pertain, together with all rights and privileges granted and secured thereby, including the right to maintain and pursue enforceable rights in the Intellectual Property Assets, and to file any and all subsequent applications based on the Intellectual Property Assets including any and all divisions, continuations, substitutions, renewals and reissues thereof together with the right of priority under the International Convention for the Protection of Industrial Property, Inter-American Convention relating to Patents, Designs and Industrial Models, and any other international agreements to which the United States of America adheres, and to sue and recover for any past violation, said rights to be held and enjoyed by Assignee, for its own use and benefit and for the use and benefit of its successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made.

2. Assignor Covenant. Assignor hereby covenants that it has full right to convey the entire interest herein assigned.

3. Authorization. Assignor hereby authorizes and requests the officials at the Patent and Trademark Offices in the United States and its territorial possessions and in any and all foreign countries to issue any and all enforceable rights, including Letters Patent or registrations, when granted, to the Assignee for the sole use and benefit of the Assignee and of its successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made.

4. Acceptance of Assignment. Assignee hereby accepts such assignment and transfer of the Intellectual Property Assets.

5. Further Assurances. Assignor shall execute such other or additional instruments of transfer or conveyance and undertake such other or additional actions in respect of the Intellectual Property Assets as are reasonably requested by Assignee, including any applicable forms of assignment necessary for filing before the U.S. Patent and Trademark Office and domain name registrars, or equivalent filings in foreign jurisdictions, to effectuate the full and complete transfer of the Intellectual Property Assets to Assignee.
