in the United States Patent and Trademark Office, and in all Letters Patent of the United States and all jurisdictions worldwide which may or shall be granted on or otherwise directed to said invention, or any equivalent or parts thereof or improvements now or hereafter made, or on said application, or any continuing, divisional, extension, provisional, reexamination, reissue, renewal, substitute, supplemental examination or other applications based in whole or in part thereon, and all rights to seek compensation for past infringement of said invention worldwide. And we agree, for ourselves and our executors and

administrators, with said Corporation and its successors and assigns but at its or their expense and charges, hereafter to execute all applications, amended specifications, deed or other instrument, and to do all acts necessary or proper to secure the grant of Letters Patent in the United States and in all other countries to said Corporation, with specifications and claims in such form as shall be approved by the counsel of said Corporation and to vest and confirm in said Corporation, its successors and assigns, the legal title to all such patents.

And we do hereby authorize CRISPR Therapeutics AG to file, or forego filing, patent applications in any jurisdictions worldwide on said invention in the name of the Assignee.

And we do hereby authorize the Commissioner of Patents of the United States and any authority of any jurisdiction whose duty it is to issue protections on inventions as aforesaid, to issue such Letters Patent as shall be granted upon said application or applications based thereon to said Corporation, its successors, legal representatives and assigns, the same to be held by Assignee for its own use and benefit and the use and benefit of its successors, legal representatives and assigns to the full end of the term or terms for which Letters Patents may be granted and/or extended.

And we do hereby represent and covenant that, at the time of execution and delivery of this instrument, except for any rights, titles and interests that have arisen to Assignee under law or that have already been transferred to Assignee, we are the sole and lawful owner of the entire right, title and interest in and to the said inventions above-mentioned, and that the same are unencumbered and that we have good and full right and lawful authority to convey the same to Assignee in the manner herein set forth, and that we have not executed, and will not execute, any instrument in conflict herewith.

And we do further hereby grant the attorneys/agents of Nelson Mullins Riley & Scarborough LLP, the power to insert on this Assignment the filing date and/or application number of said application or any further identification of the invention, or any assignor/assignee address or incorporation information which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

And we do further hereby agree that should any provision of this Assignment be determined to be void, invalid, unenforceable or against public policy, such provision may be altered in time or scope in order to give effect to such provision. If such alteration is not possible, such provision shall be deemed as severed from this Assignment and the remainder of this Assignment shall remain in full force and effect, so long as the original intent of this Assignment remains substantially intact.

This Assignment shall be interpreted and construed according to, and governed by, the laws of Zug, Switzerland.

In witness whereof, CRISPR Therapeutics AG and Jonathan Alexander Terrett, Demetrios Kalaitzidis, Mary-Lee Dequéant, and Zinkal Samir Padalia hereunto set this Assignment to be executed, and agree to be legally bound thereby, as of the dates indicated below.
