ASSIGNMENT

In consideration of the sum of One U.S. Dollar (US\$1.00) or equivalent and other good and valuable consideration, receipt of which is hereby acknowledged, and in accordance with the mutual understanding and agreement made by and among the parties hereto as of March 12, 2021, Aptos Energy, LLC, with a principal place of business at 1223 Bordeaux Drive, Sunnydale, CA 94089 (hereafter referred to as the "Assignor"), hereby reverts, sells, and assigns to Joe Feng and Thanh Ngoc Pham (hereafter collectively referred to as the "Assignee"), its entire right, title and interest within the United States of America (as defined in 35 U.S.C. § 100), and throughout the world, including the right to sue for past, present, and future infringement and to collect for all past, present, and future damages,

(a) in each of the patents and patent applications that are described in detail in Schedule A, annexed hereto and made a part hereof (collectively, the "Patents and Patent Applications"), and

(b) in any and all applications that claim the benefit of the Patents and Patent Applications, including non-provisional applications, continuing (continuation, divisional, or continuation-in-part) applications, and reissues, extensions, renewals, and re-examinations of such Patents and Patent Applications, to the full extent of the term or terms for which Letters Patents issue, and

(c) in any and all inventions described in each of the Patents and Patent Applications that are described in detail in Schedule A, and in all forms of intellectual and industrial property protection derivable therefrom, and that are derivable from any and all continuing applications, reissues, extensions, renewals and re-examinations of such Patents and Patent Applications, including, without limitation, patents, applications, utility models, inventor's certificates, and designs together with the right to file applications therefor; and including the right to claim the same priority rights from any previously- filed applications under the International Agreement for the Protection of Industrial Property, or any other international agreement, or the domestic laws of the country in which any such application is filed, as may be applicable;

all such rights, title and interest to be held and enjoyed by the Assignee, its successors, legal representatives and assigns to the same extent as all such rights, title and interest would have been held and enjoyed by the Assignor had this assignment and sale not been made.

The Assignor agrees to execute all papers necessary in connection with the applications and Letters Patents as above, and any non-provisional, continuing (continuation, divisional, or continuation-in-part), reissue, re-examination or corresponding applications thereof and also to execute separate assignments in connection with such applications as the Assignee may deem necessary or expedient.

The Assignor agrees to execute all papers necessary in connection with any judicial or administrative proceedings including, but not limited to, interference, derivation, or post-grant proceedings, patent enforcement actions (judicial or otherwise) related to the applications or Letters Patents or any non-provisional, continuing (continuation, divisional, or continuation-in-

part), re-issue or re-examination application thereof and to cooperate with the Assignee at the Assignee's expense in every reasonable way possible in obtaining evidence and going forward with such interference or patent enforcement act.
