ASSIGNMENT

In exchange for good and valuable consideration, including the use of university facilities and/or salary and/or employee benefits, the receipt of which is hereby acknowledged, **Jeremy Gilbert**, residing at 60 East Lake Road, Mt. Pleasant, South Carolina 29464, the undersigned

Hereby sells, assigns and transfers to Syracuse University, having a place of business at Office of Technology Transfer, 2-220 CST, Syracuse, New York 13244, its successors, assigns and legal representatives, the entire right, title and interest in the United States and all foreign countries, in and to any and all inventions disclosed in Research Foundation Docket R-6722 titled "Electrochemical Eradication of Microbes on Surfaces of Objects", as claimed in the following patent application and including tangible research materials, computer software, and any unique or novel innovation in the technical arts or any new and useful improvements thereof, including methods or processes for creating an object or result (a way of doing or making things), machines, devices, products of manufacture, product designs, or composition, maskworks or layout designs for printed circuit boards or integrated circuits, compositions of matter, materials, any variety of plant, ("Inventions"), as well as any know-how essential to the practice or enablement of such Inventions, and improvements in and to any and all Inventions, whether or not patentable:

Country/Int. Authority	Patent Application No.	Filing Date	Title
US	15/945,727	April 4, 2018	Electrochemical Eradication of Microbes on Surfaces of Objects

And in all applications, United States patents or similar legal protections that claim benefit or priority of any or all of the enumerated applications, including all non-provisionals or national / regional stage applications under any and all International Conventions or Treaties, including the Patent Cooperation Treaty and the European Patent Convention, and all divisionals, continuations, continuations-in-part, reissues, renewals and extensions thereof, and all substitutes of any of the foregoing, which have been or shall be filed or issued in the United States and in

any or all foreign countries on any or all of said inventions; for the entire term thereof, as fully and entirely as the same would have been held by me had this sale, assignment and transfer not been made;

And the right to file, prosecute to issuance and pursue any post-grant proceedings regarding the afore-mentioned application, patents of the United States or similar legal protections claiming benefit or priority of the enumerated applications in any and all countries or under any and all International Conventions or Treaties in the name of said Assignee and/or in the name(s) of the undersigned;

And I agree that, when requested, I shall execute all rightful oaths or declarations, assignments, powers of attorney and other papers; communicate to the Assignee, its successors, assigns and legal representatives any facts known to me respecting said inventions, testify in all legal proceedings and generally do everything possible to aid in securing and maintaining proper United States patents or similar legal protections for said inventions;

And covenant with said Assignee, its successors, assigns and legal representatives that no assignment, grant, license, other agreement, mortgage or other encumbrance affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.
