## ASSIGNMENT

Carl Zeiss 3D Automation GmbH, a German limited liability company having a place of business at Carl-Zeiss-Strasse 32, 73431 Aalen, Germany ("Assignor"), acquired rights in the following one or more patent applications ("Patent Applications"), which disclose, whether claimed or unclaimed, one or more inventions ("Inventions"):

U.S. Patent Application No. 15/915,164, filed March 8, 2018, titled Holder for a Plurality of Reference Standards for Calibrating a Measurement System; and

U.S. Patent Application No. 17/026,233, filed September 20, 2020, titled Holder for Multiple Reference Standards for Calibrating a Measurement System.

Carl Zeiss Industrielle Messtechnik GmbH ("Assignee"), a German limited liability company having a principal place of business at Carl-Zeiss-Strasse 22, 73447 Oberkochen, Germany ("Assignee"), desires to acquire "Intellectual Property" (as defined below) including the Inventions and the Patent Applications.

For US\$1 and other good and valuable consideration, the receipt and adequacy of which is acknowledged, Assignor (a) acknowledges and confirms any prior assignments or obligations to assign, whether by operation of law or agreement, from Assignor to Assignee of any part of the Intellectual Property and (b) as of May 1, 2018 ("Effective Date") nunc pro tunc, agrees to and hereby irrevocably assigns, sells, and transfers all legal and equitable right, title, and interest in and to the Intellectual Property in the U.S. to Assignee. Assignee acknowledges and accepts the assignment, sale, and transfer. The right, title, and interest will be held and enjoyed by Assignee and Assignee's successors in interest to the full end of any term, and to the full extent, as the Intellectual Property would have been held and enjoyed by Assignor if no assignment, sale, or transfer had been made to Assignee.

The Intellectual Property includes:

1. the Inventions;
2. all patent rights relating to the Inventions in the U.S., including:
  - a. the Patent Applications;
  - b. any U.S. application to which any of the Patent Applications claims priority or benefit directly or indirectly, where "application" includes provisional patent applications, nonprovisional patent applications, design applications;
  - c. any U.S. application that claims priority to or benefit of any application identified in subparts (a)-(b) directly or indirectly (including divisionals, continuations, and continuations-in-part);
  - d. any U.S. Patent arising from any application identified in subparts (a)-(c);
  - e. any modification or extension of any official grant identified in subpart (d), including reissues, reexaminations, and claim amendments in post-grant proceedings; and
3. all rights to assert, defend, and recover for any past, present, and future infringement, misuse, misappropriation, impairment, unauthorized use, or other violation of any of the Intellectual Property, including for damages accrued prior to execution of this Assignment and pre-issuance damages under 35 U.S.C. § 154(d).

Assignor requests the Director of the USPTO to issue the official grant in the name of Assignee.

If any provision of this Assignment is determined to be invalid or unenforceable for any reason, including by operation of law, all other provisions will remain in full force and effect, and Assignor and Assignee hereby request the court or tribunal making such a finding to substitute an enforceable provision that most closely reflects the original.

Assignor grants Hatness, Dickey & Pierce, P.L.C. the power and authority to, after execution of this Assignment, (i) overlay annotations to correct any typographical errors in application numbers, filing dates, and titles provided above, and (ii) overlay

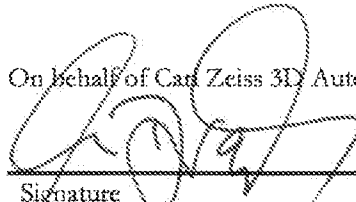

ASSIGNMENT

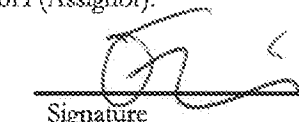

annotations to correct any formal errors in the legal name of the Assignee.

This Assignment may be executed in any number of duplicate counterparts. The text of this Assignment together with a copy of each executed signature page will constitute one and the same instrument. Execution of a facsimile copy (including a PDF) will

have the same force and effect as execution of an original, and a facsimile signature will be recognized as an original and valid signature. Further, Assignor and Assignee agree that an electronic signature, such as a typed name or electronic representation of a freehand signature, may be used to execute this Assignment.
