ASSIGNMENT

WHEREAS, we, the undersigned (collectively “the Assignors”), are the inventors of a certain new and useful invention and discovery entitled “SYSTEMS, DEVICES, AND METHODS FOR COMBINED WAFER AND PHOTOMASK INSPECTION” (“the Invention”) for which a patent application was filed with the United States Patent and Trademark Office on 02/20/2018 as U.S. Patent Application Number 15/899,456 (“the Application”).

WHEREAS, Nanotronics Imaging, Inc., existing under the laws of the State of Delaware, having its principal office at 2251 Front Street, Suite 110, Cuyahoga Falls, OH 44223, which together with its successors and assigns (collectively “the Assignee”) is desirous of acquiring the title, rights, benefits, and privileges hereinafter recited.

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby assign to Assignee all of Assignors’ entire right, title, and interest in and to the Invention, all improvements therein, the Application and all priority rights arising therefrom, and any applications and/or patents, and any reissues and extensions thereof, which issue in any country upon any patent applications which correspond with any of the following: the Application; any application that claims priority from the Application (including utility applications, divisionals, continuations, continuations-in-part, international applications, and/or foreign regional and/or national applications); any application from which the Application claims priority (including provisional applications, non-provisional applications, international applications, foreign regional applications, and/or foreign national applications); or any application based in whole or in part on any of the foregoing.

Assignors agree that such Assignors and Assignors’ heirs and legal representatives will, without further consideration, cooperate with Assignee in the prosecution of all of the above applications, execute, verify, acknowledge, and deliver all such further papers, including applications for patents and for reissues and extensions therefor, and instruments of assignment and transfer thereof, and will communicate any facts known to Assignors relating to the Invention, to obtain or maintain or enforce patents for the Invention and improvements therein in any and all countries and to vest title thereto in Assignee. Assignors further agree that such Assignors will, without further compensation to Assignors during the term of such Assignors’ employment by Assignee and thereafter for reasonable compensation as determined by Assignee, perform such other acts as may be reasonably required when requested by Assignee, including attending depositions, preparing and executing declarations and affidavits and testifying as a witness, to obtain or maintain or enforce patents for the Invention and improvements therein in any and all countries and to vest title thereto in Assignee.
