**ASSIGNMENT**

WHEREAS, as a below named inventor, I have invented certain new and useful improvements in

**INFANT CALMING/SLEEP-AID, SIDS PREVENTION DEVICE,  
AND METHOD OF USE**

for which a United States Patent application was filed on July 31, 2014 and bears Application Number 14/448,679;

for which an international application was filed on July 31, 2014 and bears Application Number PCT/US2014/049253;

(hereinafter "Application(s)")

AND, WHEREAS, Unacuna, LLC, a limited liability company of the State of Delaware, having a place of business at 11357 Montana Avenue, Los Angeles, CA 90049, hereinafter called the "Assignee", is desirous of acquiring the entire right, title, and interest in and to said Application(s) and the inventions and improvements therein disclosed.

NOW, THEREFORE, for good and valuable consideration paid to me by said Assignee, the receipt and sufficiency of which are hereby acknowledged, I as a named inventor, hereinafter the Assignor, do hereby assign, sell and transfer unto said Assignee the full and exclusive right, title and interest in and to said Application(s) and the inventions and improvements therein disclosed for the United States and all foreign countries and any Letters Patent which may issue therefor in the United States and all foreign countries, and all conversions, divisions, reissues, continuations, continuations-in-part, renewals and/or extensions thereof, in each case, to the extent of my rights and ownership therein. Such assignment also includes the right to claim priority to the Application(s) under any law, rule, treaty, or convention. Such assignment extends to the full ends of the terms of the Application(s) and such Letters Patent as fully and entirely as the same would have been held and enjoyed by me had this Assignment not been made. Said full and exclusive right, title, and interest referred to above includes all rights to all past, present and future claims for infringement of any patent resulting from said Application(s) including the right to grant licenses, to bring lawsuits, and to recover damages for any past, present, and future infringement, whether known or unknown, now existing or hereafter arising.

I, as a named inventor, covenant that: (i) I am hereby assigning, selling and transferring 100% of my ownership interests in said Application(s), inventions and improvements; (ii) I have not previously assigned, sold, transferred, licensed, encumbered such interests or agreed to assign, sell, transfer, license or encumber such interests; and (iii) I have the full right to make this Assignment.

And for the consideration aforesaid, I agree individually and, if applicable, jointly, that I will communicate to said Assignee or the representatives thereof any facts known to me respecting said inventions and improvements, and will, upon request but at the sole expense of the Assignee (which expense shall include customary hourly consulting fees, incidental out-of-pocket costs and expenses and reasonable legal costs with respect to the review of such documents), testify in any legal proceedings, sign all lawful papers, execute all conversion, divisional, reissue, continuation, continuation-in-part, renewal and/or extension applications, make all rightful oaths, and generally do all other and further lawful acts reasonably necessary or expedient to assist or enable said Assignee to obtain and enforce full benefits from the rights and interests herein assigned. This Assignment shall be binding upon my heirs, executors, administrators and/or assigns, and shall inure to the benefit of the heirs, executors, administrators, successors and/or assigns, as the case may be, of said Assignee.

The Commissioner of Patents and Trademarks is hereby authorized and requested to issue patents to the Assignee in accordance with the terms of this Assignment.
