AND WHEREAS, **Loadshare Technologies Inc.** (the "Assignee"), whose full post office address is PO BOX 1198, RPO Metrotown, Burnaby, British Columbia V5H 4J8, Canada, has acquired the entire worldwide right, title, and interest in and to: the Inventions, the Applications, and all patents which may be granted on or as a result thereof in all countries.

In consideration of ONE (\$1.00) DOLLAR and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Assignor confirms that Assignee is the owner of all right, title and interest in and to the Inventions and the Applications and, for greater certainty, to the full extent that she has not done so previously, the Assignor does hereby sell, assign, transfer, and set over to the Assignee the entire right, title, and interest in and to:

- the right to file counterparts to the Applications in all countries and regions;

- all patents which may be granted on or as a result thereof; and
- any reissue or reissues of such patents;

the same to be held and enjoyed by the Assignee, its successors, assigns, nominees or legal representatives, to the full end of the term or terms for which such patents respectively may be granted, reissued or extended, as fully and entirely as the same would have been held and enjoyed by the Assignor, had this Assignment, sale and transfer not been made.

The Assignor hereby covenants that he: has full right to convey the interest herein assigned; and has not executed and will not execute any agreement to transfer any rights in the Inventions and/or the Applications to anyone other than the Assignee or that is otherwise in conflict herewith.

- make all rightful oaths in relation to the Inventions, the Applications and said patents; and
- generally to do everything possible to aid the Assignee, its successors, assigns, nominees and legal representatives to obtain and enforce for its or their own benefit, proper patent protection for the Inventions in all countries; all at the expense, however, of the Assignee or its successors, assigns, nominees or legal representatives.

The Assignor hereby irrevocably designates and appoints the Assignee and its duly authorized officers and agents, and their successors, as its agents and attorneys-in-fact, to act on the Assignor's behalf and instead of the Assignor, to execute and file applications to patent the Inventions in all countries, and to do all other proper lawfully-permitted acts to further the assignment, prosecution and issuance of patents for the Inventions with the same legal force and effect as if executed by the Assignor. This power of attorney shall be deemed coupled with an interest and is irrevocable.
