PATENT ASSIGNMENT

In consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged, I, JEFFREY FLEISIG residing at 381 Essex Avenue Bloomfield, NJ 07003 (hereinafter "Assignor"), hereby sells, assigns and transfers to PUCLINE, LLC, a limited liability corporation organized and existing under the laws of the State of California, and having a place of business at 224 3rd Avenue, Venice, California 90291 (hereinafter "Assignee"), all (i.e. 100%) of my rights, title and interest in and to the inventions disclosed in U.S. Patent Application Serial No. 14/957,510 entitled "ELECTRICAL POWER SUPPLYING SYSTEM HAVING AN ELECTRICAL POWER SUPPLYING DOCKING STATION WITH A MULTI-FUNCTION MODULE FOR USE IN DIVERSE ENVIRONMENTS" filed December 2, 2015 in the United States Patent and Trademark Office (USPTO), and in any and all countries, as set forth below, and all the rights and privileges under any and all Letters Patents that may be granted to Assignee for the entire terms of the Letters Patents and any reissues or extensions and for the entire terms of any patents, reissues or extensions that may issue from foreign applications, divisions, continuations in whole or part or substitute applications filed claiming the benefit of said U.S. Patent Application.

The right, title and interest conveyed in this Assignment is to be held and enjoyed by Assignee and Assignee's successors as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

I request that any and all patents for said inventions be issued to said Assignee, its successors, assigns and legal representatives, or to such nominees as they may designate.

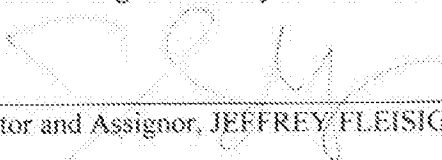

I agree that, when requested, I will, without charge to said Assignee but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for said inventions in any and all countries and for vesting title thereto in said Assignee, its successors, assigns and legal representatives or nominees.

I authorize and empower said Assignee, its successors, assigns and legal representatives or nominees, to invoke and claim for any application for patent or other form of protection for said inventions filed by it or them, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it, and to invoke and claim such right of priority without further written or oral authorization from me.

I hereby consent that a copy of this Patent Assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document which may be required in any country for any purpose and more particularly in proof of the right of the said Assignee or nominee to claim the aforesaid benefit of the right of priority provided by the Patent Laws of the United States of America and those of any and all foreign countries, pursuant to International Treaty.

I covenant with said Assignee, its successors, assigns and legal representatives, that the rights and property herein conveyed are free and clear of any encumbrance including, but not limited to, any

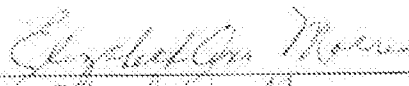

assignment, grant, mortgage, license or other agreement affecting the rights, title and interest herein, and that I have full right to convey the same as herein expressed.
