PATENT ASSIGNMENT

WHEREAS, I, Fernando Benjamin FISCHMANN, made certain new and useful inventions and improvements for which I filed the following application with the United States Patent and Trademark Office:

- U.S. Patent Application No. 16/656,966, filed October 18, 2019;
(Collectively referred to herein as the "CIP Application")

WHEREAS, I previously executed an assignment of the parent applications to which this CIP Application claims priority, such assignment assigning the parent applications to Crystal Lagoons (Curacao) B.V. (which subsequently redomiciled and changed its name to CRYSTAL LAGOONS TECHNOLOGIES, INC.), and to the extent that the CIP Application was not covered by that previous assignment, this assignment is made in order to make clear and certain that the CIP Application is assigned to CRYSTAL LAGOONS TECHNOLOGIES, INC.;

AND WHEREAS, CRYSTAL LAGOONS TECHNOLOGIES, INC., a corporation organized and existing under and by virtue of the laws of Delaware, and having an office and place of business at 2 Alhambra Plaza, Penthouse 1B, Coral Gables, Florida 33134 (hereinafter "Assignee") is desirous of acquiring the entire right, title and interest in and to said inventions, improvements and application and in and to the Letters Patent to be obtained therefor;

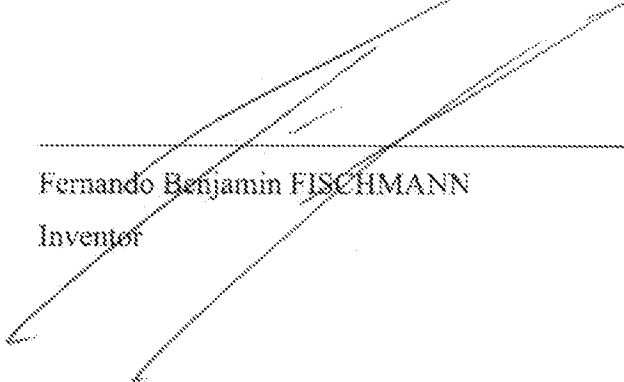

NOW THEREFORE, to all whom it may concern, be it known that for good and valuable considerations, the receipt and sufficiency whereof is hereby acknowledged, I have sold, assigned, and transferred, and by these presents do sell, assign and transfer unto said Assignee, its successors or assigns, the entire right, title and interest for all countries in and to all inventions and improvements disclosed in the aforesaid CIP Application, and the right(s) to claim priority thereto, and in and to the CIP Application, all patent applications based upon said CIP Application, all divisions, continuations, or renewals thereof, all Letters Patent which may be granted therefrom, and all reissues or extensions of such patents, and in and to any and all applications which have been or shall be filed in any foreign countries for Letters Patent on the inventions and improvements, including an assignment of all rights under the provisions of the International Convention, and all Letters Patent of foreign countries which may be granted therefrom; and I do hereby authorize and request the Commissioner of Patents and Trademarks to issue any and all United States Letters Patent for the aforesaid inventions and improvements to

the Assignee as the assignee of the entire right, title and interest in and to the same, for the use of the Assignee, its successors and assigns.

AND, for the consideration aforesaid, I do hereby agree that I and my executors and legal representatives will make, execute and deliver any and all other instruments in writing including any and all further application papers, affidavits, assignments and other documents, and will communicate to said Assignee, its successors and representatives all facts known to me relating to said improvements and the history thereof and will testify in all legal proceedings and generally do all things which may be necessary or desirable more effectually to secure to and vest in said Assignee, its successors or assigns the entire right, title and interest in and to the improvements, inventions, CIP Application, Letters Patent, rights, titles, benefits, privileges and advantages hereby sold, assigned and conveyed, or intended so to be.

AND, furthermore I covenant and agree with said Assignee, its successors and assigns, that, other than as described above, no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by me and that full right to convey the same as herein expressed is possessed by me.

IN TESTIMONY WHEREOF, I have hereunto set my hand this 4 day of
June, 2021

Fernando Benjamin FISCHMANN
Inventor
