## ASSIGNMENT

In consideration of the sum of One Dollar (\$1.00) or equivalent and other good and valuable consideration paid to each of the undersigned inventors: **Damien Z. MOYAL, John SICILIANO, and James M. STELZER** hereby sell and assign to **Amcor Rigid Packaging USA, LLC**, a limited liability company, organized and existing under the laws of the State of Delaware and having an office and place of business at 935 Technology Drive, Ann Arbor, Michigan 48108 (hereafter referred to as the "Assignee"), his/her entire right, title and interest, including the right to sue for past infringement and to collect for all past, present and future damages, for the United States of America (as defined in 35 U.S.C. § 100) and throughout the world:

/DAG #64,515/  
2021-06-14

(a) in the invention(s) directed to the ornamental (non-functional) aspects of an article of manufacture known as **BOTTLE** for which application(s) for patent in the United States of America has a filing date or a 371(c) date of June 11, 2021 (also known as United States Application No. 29/794,419), the application thereon, in any and all Letters Patent(s) thereof, and

(b) in any and all applications directed to the ornamental (non-functional) aspects that claim the benefit of the patent application listed above in part (a), including non-provisional applications, continuing (continuation, divisional, or continuation-in-part) applications, reissues, extensions, renewals and reexaminations of the patent application or Letters Patent thereof, to the full extent of the term or terms for which Letters Patents issue, and

(c) in any and all inventions directed to the ornamental (non-functional) aspects described in the patent application listed above in part (a), and in any and all forms of intellectual and industrial property protection directed to the ornamental (non-functional) aspects that are derivable from any and all continuing (continuation, divisional, or continuation-in-part) applications, reissues, extensions, renewals and reexaminations of such patent application, with the right to file applications therefor; and including the right to claim the same priority rights from any previously filed applications thereof under the International Agreement for the Protection of Industrial Property, or any other international agreement, or the domestic laws of the country in which any such application is filed, as may be applicable;

all such rights, title and interest to be held and enjoyed by the above-named Assignee, its successors, legal representatives and assigns to the same extent as all such rights, title and interest would have been held and enjoyed by the undersigned inventors had this assignment and sale not been made.

The undersigned inventors agree to execute all papers necessary in connection with the application(s) and any non-provisional, continuing (continuation, divisional, or continuation-in-part), reissue, reexamination or corresponding application(s) thereof and also to execute separate assignments in connection with such application(s) as the Assignee may deem necessary or expedient.

The undersigned inventors agree to execute all papers necessary in connection with any administrative proceeding, including but not limited to an interference, derivation, or post-grant

proceeding, related to the application(s) or any non-provisional, continuing (continuation, divisional, or continuation-in-part), reissue or reexamination application(s) thereof or Letters Patent(s) therefor.

The undersigned inventors agree to cooperate with the Assignee at Assignee's expense in Assignee's efforts to obtain, defend, or enforce any intellectual or industrial property right directed to the ornamental (non-functional) aspects described in the patent application listed above in part (a).

The undersigned inventors hereby represent that he/she has full right to convey the entire interest herein assigned, and that he/she has not executed, and will not execute, any agreement in conflict therewith.

The undersigned Inventors hereby grant the patent practitioners associated with **CUSTOMER NUMBER 134769** the power to insert in this assignment any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

IN WITNESS WHEREOF, executed by the undersigned Inventors on the date opposite his/her name.
