DECLARATION AND ASSIGNMENT AGREEMENT

This DECLARATION AND ASSIGNMENT AGREEMENT is entered into between:

Alessandro Roberto Pereira of Piracicaba, Brazil, **Marcelo dos Santos de Oliveira Silva** of Sorocaba, Brazil, **Jean Carlos Pereira de Camargo** of Piracicaba, Brazil, and **Anderson Antonio Moreno** of Piracicaba, Brazil (“Inventor(s)”);
CNH Industrial Brasil LTDA of Rua Senador Milton Campos, 175, 8º andar, Vila da Serra, CEP 34.006-050, Nova Lima, MG, Brazil (“Assignor”); and
CNH Industrial America LLC of 500 Diller Ave., New Holland, Pennsylvania 17557, United States, (“Entitled Owner”).

Inventor(s) herewith declares that he/she believes he/she is the original inventor or an original joint inventor of an invention (“Invention”) to be claimed in a United States Patent Application (“Application”) and entitled “Elevator Assembly for an Agricultural Harvester with a Storage Hopper Having a Conveyor Therein and Related Methods.” The Application is based on the invention disclosure entitled “Elevator – Non stop harvesting system” submitted to the Entitled Owner under internal reference number 55282-R-18-PIR.

Inventor(s) herewith confirms that he/she made the Invention while being in the employ of Assignor and in the execution of his/her normal duties and/or tasks assigned to him/her, and that, by virtue of the Laws of Brazil and/or his/her contract of employment, Assignor is rightfully entitled to the entire right, title and interest in and to the Invention and any and all applications for patent and patents granted therefor in any and all countries, including all divisions, reissues, continuations, reexaminations, inventor's certificates, and extensions therefor, and all right of priority resulting from the filing of the Application. To the extent that the Laws of Brazil and/or the applicable contract of employment do not assign all rights, title, and interest in and to the Invention, Inventor(s) hereby presently assigns all such rights, title, and interest to Assignor.

Assignor and Entitled Owner have agreed that all rights in and to the Invention should be vested in Entitled Owner.

Therefore, for good and valuable consideration, Assignor herewith sells, assigns, and transfers to Entitled Owner its entire right, title, and interest in and to the Invention and any and all applications for patent and patents granted therefor in any and all countries, including all divisions, reissues, continuations, reexaminations, inventor's certificates, and extensions therefor, and all right of priority resulting from the filing of the Application.

Inventor(s) agrees to communicate to Entitled Owner, its representatives, successors or assigns all facts known to him/her regarding the Invention, whenever requested, and to testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing, reexamination, and reissue applications, and make all rightful oaths and generally do everything to aid said Entitled Owner, its successors, assignees, and representatives to obtain and enforce proper patent protection for the Invention.

In testimony whereof Inventor(s), Assignor, and Entitled Owner have caused this Agreement to be effective as of at least the earliest execution date provided below.
