ASSIGNMENT OF PATENT APPLICATION

WHEREAS, **Francis T. HAXO**, of San Francisco, CA, and **Michael J. KIMZEY**, of Oakland, CA, hereinafter referred to as "Assignors," are the inventors of the invention described and set forth in the below-identified provisional application for United States Letters Patent:

Title of Invention: Use of Bispyridines to Improve Labeling of Nucleophiles

Filing date: February 26, 2016

Application No.: 62/300,609

WHEREAS, **ProZyme, Inc.**, a corporation of the state of California, located at 3832 Bay Center Pl., Hayward, CA 94545, hereinafter referred to as "Assignee," is desirous of acquiring an interest in the invention and application and in any U.S. Letters Patent or foreign patents which may be granted on the same;

For good and valuable consideration, the receipt of which is hereby acknowledged by Assignors, Assignors hereby assign to Assignee all right, title and interest in and to the invention and application and to all foreign counterparts (including patent, utility model and industrial designs) and in and to any Letters Patents and Registrations which may hereafter be granted on applications claiming priority to said provisional U.S. application in the United States or in any and all countries throughout the world, and to claim priority from the application as provided by the Paris Convention. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignors had this Assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, and in any division, continuation, substitution, conversion, reissue, prolongation or extension thereof, and in any continuation in part thereof, to the extent the claims of any such continuation in part are supported by the disclosure of the captioned application.

Assignors further agree that they will, without charge to Assignee, but at Assignee's expense, (a) cooperate with Assignee in the prosecution of U.S. patent applications and foreign counterparts on the invention embodied in the Application, (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer, and (c) perform such other acts as Assignee may lawfully request to obtain or to maintain Letters Patent

and Registrations for the invention in any and all countries, and to vest title thereto in Assignee or Assignee's successors and assigns.

IN TESTIMONY WHEREOF, Assignors have signed their names on the dates indicated.

Dated: 02/05/17
