QUITCLAIM PATENT ASSIGNMENT

This QUITCLAIM PATENT ASSIGNMENT (this “**Assignment**”) is dated as of September 20, 2018 (the “**Effective Date**”), by and between Spectrum Pharmaceuticals, Inc., a Delaware corporation, with corporate headquarters at 11500 S. Eastern Ave., Henderson, NV 89052 (the “**Assignor**”) and Unicycive Therapeutics, Inc., a Delaware corporation, having a principal place of business at 5150 El Camino Real, Suite #A-32, Los Altos, CA 94022 (the “**Assignee**”). Assignee and Assignor may be referred to collectively herein as the “**Parties**” and individually as a “**Party**”.

WHEREAS, Assignor has certain rights to certain patents and patent applications set forth in the attached Schedule A (the “**Patent Rights**”); and

WHEREAS, Assignee and Assignor are parties to that certain Assignment and Asset Purchase Agreement, dated as of the date hereof (the “**Purchase Agreement**”), pursuant to which Assignee has agreed to acquire, on a quitclaim basis, and Assignor has agreed to sell, convey, assign, deliver and transfer to Assignee, all of Assignor’s rights, title and interest in, to and under the Patent Rights.

NOW, THEREFORE, in view of the foregoing premises and in consideration of the mutual covenants, agreements, representations, and warranties herein contained, the Parties agree as follows:

1. Definitions. Capitalized terms used but not defined herein shall have the meanings given to such terms in the Purchase Agreement.

2. Assignment of Rights. Effective as of the Effective Date, in consideration of the amounts provided for in the Purchase Agreement, Assignor hereby sells, assigns, transfers, conveys and delivers to Assignee, and Assignee hereby purchases, acquires, and accepts from Assignor, all of Assignor’s right, title and interest in, to and under the Patent Rights, together with: (a) all issuances, divisionals, continuations, continuations-in-part, reissuances, reexaminations, renewals, extensions (or post-issuance examinations) of the Patent Rights, (b) all rights to claim priority in accordance with any law, treaty or international convention, (c) all rights to collect royalties and proceeds in connection with any of the foregoing, (d) the inventions disclosed in the Patent Rights and all applications for patents which may hereafter be filed for inventions embodied by said Patent Rights, and all patents which may be granted for said inventions, (e) all rights of action pertaining to the Patent Rights, including, without limitation, the right to sue for past, present or future infringement of said Patent Rights together with all claims for damages, injunctive relief, or any other remedies of any kind, for reason of past, present or future infringement of said Patent Rights, and the right to sue for and collect the same for Assignee’s own use and enjoyment, (f) the right to initiate other proceedings before all Governmental Authorities with respect to the Patent Rights, (g) the right to file foreign counterparts, and make applications for reissuances, reexaminations, divisionals, continuations, continuations-in-part, provisionals and extensions with respect to any of the Patent Rights (including rights resulting from any post-grant proceedings relating to any of the foregoing for all jurisdictions throughout the world), and (h) all rights under the Paris Convention for the Protection of Industrial Property, all to be held and enjoyed by Assignee, its successors and

assigns, as fully and entirely as the same would have been held and enjoyed by Assignor had this Assignment not been made.

3. Recordation. From and after the date hereof, Assignee shall be responsible for and shall pay all costs relating to the registration, maintenance and prosecution of the Patent Rights, including payment of any associated fees therefor, for the notarization, authentication, legalization or consularization of Assignee's signatures hereof, and for the recording of such assignment documents with the appropriate Governmental Authorities. Assignor hereby authorizes the applicable patent offices or other relevant Governmental Authority to register and record Assignee as the assignee and owner of the Patent Rights, including any issuances, reissuances, continuations, divisions, continuations-in part, revisions, renewals, extensions and reexaminations with respect thereto.

4. No Warranty. For the sake of clarity and as part of this Assignment, Assignor makes no representations or warranties, either express or implied, as the adequacy or sufficiency of the Patent Rights, their freedom from defects of any kind, including freedom from any claim of patent or trade secret infringement and may result from the use thereof. This Assignment provides no warranties, including warranties of title.

5. Further Assurances. Assignor further agrees that Assignor will, without demanding any further consideration therefor, at the request but at the expense of Assignee, do all lawful and just acts, including without limitation the execution and acknowledgment of instruments that may be or become necessary to effect or formalize the transfer of the Patent Rights or as may be necessary to prosecute, obtain, maintain or enforce the Patent Rights.

6. Miscellaneous. This Assignment is executed and delivered pursuant to, and is given to further evidence (and give immediate effect to) the transfers and assignments contemplated by the Purchase Agreement upon the terms and conditions specified therein. In the event that any provision of this Assignment shall be construed to conflict with a provision in the Purchase Agreement, the provision in the Purchase Agreement shall control. This Assignment may be executed in counterparts, each of which shall be deemed to be an original, and all of which shall be deemed to constitute the same agreement. If any signature is delivered by facsimile transmission or by email in PDF, such signature shall create a valid and binding obligation of the Party executing (or on whose behalf the signature is executed) with the same force and effect as if such facsimile or PDF signature were an original thereof. This Assignment shall be binding upon and shall inure to the benefit of the Parties and their respective successors and assigns. This Assignment and the rights and obligations of the Parties shall be construed in accordance with and governed by the laws of the State of New York, without regard to its conflict of laws principles, and shall be subject to the provisions of Section 9.2 (Dispute Resolution) of the Purchase Agreement.
