INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This Intellectual Property Assignment Agreement (this "**Assignment**"), dated as of 8 December 2020 ("**Effective Date**"), is entered into between Emisphere Technologies, Inc., a Delaware corporation ("**Assignor**") and Novo Nordisk North America Operations A/S, an entity organized under the laws of Denmark ("**Assignee**") (each referred to as a "**Party**" and together the "**Parties**").

WITNESSETH

WHEREAS, pursuant to that certain Asset Purchase Agreement, between Assignor and Assignee, dated as of 8 December 2020 (the "**Purchase Agreement**"), Assignor has agreed to deliver to Assignee this Assignment with respect to the Assigned IP (as defined herein); and

WHEREAS, pursuant to this Assignment, Assignor desires to assign to Assignee all of the Assigned IP.

NOW, THEREFORE, for good and valuable consideration (including pursuant to the Purchase Agreement), the receipt and adequacy of which are hereby acknowledged, the Parties hereto, intending to be legally bound hereby, agree as follows.

1. For the purposes of this Assignment, the term "**Intellectual Property**" means all of the following in any jurisdiction throughout the world: (i) any and all *patents* and/or patent applications and provisional applications, all inventions disclosed therein, and any and all continuations, continuations-in-part, continued prosecution applications, divisions, renewals, patents of addition, reissues, confirmations, registrations, revalidations, revisions and re-examinations thereof, utility models, petty patents, design registrations and any and all patents issuing therefrom and any and all foreign counterparts thereof and extensions of any of the foregoing; (ii) *copyrights* and works of authorship and registrations and applications therefor for any designs; (iii) *know-how*, whether or not patentable, inventions, discoveries, data, information, protocols, processes, methods, techniques, materials, technology, results, algorithms, marketing reports and plans, market research, expertise, or other know-how; (iv) *trade secrets* and other confidential information relating to the foregoing; and (v) all *other intellectual property rights* in the foregoing.
2. Assignor hereby irrevocably assigns, transfers and conveys to Assignee all of Assignor's right, title and interest in, and to and under any and all Intellectual Property owned by Assignor, including but not limited to those patents and trademarks listed in Schedule A hereto (collectively the "**Assigned IP**"), in the United States and elsewhere and together with all (i) income, royalties, claims for damages, profits and costs and damages and payments due or payable at the Effective Date or thereafter (including damages and payments for any past, current or future infringements or misappropriations of the Assigned IP); (ii) choses in action and rights to sue, recover and collect for any past, present or future infringements or misappropriations of the Assigned IP, and (iii) corresponding rights that, now or hereafter, may be secured throughout the world with respect to the Assigned IP.

3. From and after the Effective Date, in the event any further action is necessary to carry out the purposes of this Assignment, Assignor and its directors, officers, managers and members shall take all such necessary action as may be reasonably requested by Assignee to achieve such intent, including the execution of any documentation reasonably requested by Assignee to effectuate the assignment, transfer and conveyance of the Assigned IP (including any documentation for filing with the United States Patent and Trademark Office or any equivalent foreign agency).
4. Assignor hereby authorizes and requests the Commissioner of Patents and any equivalent authority, entity or agency or registrar to record Assignee as the assignee and owner of the Assigned IP.
5. This Assignment and all disputes or controversies arising out of or relating to this Assignment shall be governed by, and construed in accordance with, the laws of Denmark, without reference to its choice of laws rules. Each Party hereby irrevocably consents to the exclusive jurisdiction of and venue in the courts of Denmark with respect to any claim, action or proceeding arising out of or in connection with this Agreement or the transactions contemplated hereby.
6. This Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Assignment delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Assignment.

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, the Parties hereto have caused this Assignment to be executed as of the date first written above by their respective officers thereunto duly authorized.
