ASSIGNMENT

THIS ASSIGNMENT, made by me, **Richard Baumhardt**, a citizen of the United States of America, residing in Breckenridge, MN;

WITNESSETH: That,

WHEREAS, I am one of the joint inventors of certain new and useful improvements in **HOSPITAL SUPPORT POLES WITH ONBOARD POWER UNITS** for which U.S. Provisional Application No. 62/221,409 was filed on September 21, 2015 in the United States Patent and Trademark Office; and

WHEREAS, **ComDel Innovation, Inc.**, a North Dakota corporation having a principal place of business at 2100 15th Street, North Wahpeton, North Dakota, 58075, hereinafter referred to as Assignee, is my employer and I have previously assigned or agreed to assign my entire right, title and interest in and to inventions arising under my employment;

NOW, THEREFORE, To Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I have sold and/or by these presents do hereby sell, assign, transfer, and convey unto the said Assignee, its successors and assigns, my entire right, title, and interest in and to the said invention(s) and provisional application(s), and in and to any and all subsequent patent applications which claim the benefit of priority from said provisional application(s) including regular utility, continuations, and continuations-in-part, or divisions thereof, and PCT applications and in and to any and all Letters Patent of the United States of America and all foreign countries or reissues or other forms of protection thereof which may be granted for the invention in or on applications claiming the benefit of priority from said provisional application(s), for the full end of the term for which said Letters Patent may be granted along with any term extensions thereof or therefor, together with the right to claim the benefit of priority from said application(s) in all foreign countries in accordance with the International Convention, the same to be held and enjoyed by said Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by me if this assignment and sale had not been made.

I further covenant and agree to promptly communicate to said Assignee or its representatives any facts known to me relating to said invention(s), to testify in any interference or legal proceedings involving said invention, to execute any additional papers which may be requested to confirm the right of the Assignee, its representatives, successors,

or assigns to secure patent or similar protection for the said invention in all countries and to vest in the Assignee complete title to the said invention and Letters Patent, without further compensation, but at the expense of said Assignee, its successors, assigns, and other legal representatives; and I hereby instruct, and further covenant and agree to bind our heirs, legal representatives, and assigns, to do same, without further compensation, but at the expense of said Assignee or its representatives.
