Assignor is the holder of patent rights (by assignment) in useful inventions (the "Inventions") described in the United States patent application(s) and/or United States Patents (collectively, the "Applications") bearing the titles and numbers listed above. The application number(s) assigned by the USPTO and filing date(s) of the Inventions are as shown. If the Application number and filing date are not indicated above, the undersigned hereby authorizes the appointed attorney to add the filing date and serial number of said Application to this document.

For valuable consideration, receipt of which is acknowledged, Assignor hereby assigns to Assignee (which term shall include Assignee's successors and assigns), all of Assignor's right, title and interest in the Inventions, all improvements therein, the Application and all priority rights arising therefrom, and any patents, and any reissues and extensions thereof, which issue in any country upon any patent applications which correspond with any of the following: the Application; any application that claims priority from the Application (including as a divisional, continuation-in-whole or continuation-in-part, or as an application claiming priority from a provisional application); or any application based in whole or in part on any of the foregoing.

The Assignor agrees that, when requested, the Assignor will, without charge to Assignee, but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and/or maintaining patents for said invention in the United States of

America for vesting title thereto in said Assignee, its successors, assigns and legal representatives or nominees.

The Assignee agrees to and accepts this Assignment.

IN WITNESS WHEREOF, Assignor and Assignee hereby execute this instrument on the date set forth below.
