### RECITALS

**WHEREAS**, Assignor is the owner of the registered United States Design Patent listed on Schedule 1, attached hereto (the "*Assigned Patent*").

**WHEREAS**, Assignee is desirous of acquiring the full right, title and interest in, to and under the Assigned Patent and the goodwill accrued in connection and associated therewith.

**NOW, THEREFORE**, in consideration of the foregoing and the mutual promises, covenants and conditions contained herein, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties hereto, intending to be legally bound, hereby agree as follows:

Section 1. Assignment. Assignor does hereby assign, transfer, convey and set over unto Assignee its full right, title and interest, including common law rights, in the United States of America, and in all countries and jurisdictions of the world, in, to and under the Assigned Patent and all non-provisional, extensions, divisionals, continuations, renewals and reissues thereof, and all rights of priority under International Conventions and application for Letters Patent which may hereafter be filed for said design and Assigned Patent in any country or countries foreign to the United States, and all Letters Patent which may be granted for said design and Assigned Patent in any country or countries foreign to the United States, and all extensions, renewals and reissues thereof; and including all rights to publish cautionary notices reserving ownership of the said design and Assigned Patent and all rights to register the said design and Assigned Patent in appropriate registries and the exclusive right to enforce the Assigned Patent in the United States and throughout the world in the sole name of Assignee, its successors and assigns. I hereby authorize and request the Commissioner of Patents of the United States, and any Official of any country or countries foreign to the United States, whose duty it is to issue patents on applications as foresaid, to issue all Letters Patent for said design and Assigned Patent to the said Assignee, its successors, legal representatives and assigns, in accordance with the terms of this instrument; the aforesaid transferred rights, title and interests to be held and enjoyed by Assignee, its successors, legal representatives and assigns as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment not been made.

Section 2. Representation and Warranty by Assignor. Assignor hereby represents and warrants to Assignee that Assignor has the full right, title and interest to assign, transfer, convey, and set over the entire rights, title and interests assigned hereunder, and that Assignor has not executed and will not execute any agreement in conflict herewith.

Section 3. Covenant by Assignor. Assignor agrees that it will, upon Assignee's reasonable request, execute and deliver all such instruments and other documents as may be necessary or desirable to perfect Assignee's title in, to and under the Assigned Patent.

Section 4. Counterparts. This Assignment Agreement may be executed in counterparts, each of which shall be deemed to be an original, but all of which together shall constitute a single agreement.

Section 5. Governing Law. This Agreement shall be governed by, and construed in accordance with, the laws of the Province of Quebec.

Section 6. Entire Agreement. This Agreement and all other agreements, exhibits, and schedules referred to in this Agreement constitute(s) the final, complete, and exclusive statement of the terms of the agreement between the Parties pertaining to the subject matter of this Agreement and supersedes all prior and contemporaneous understandings or agreements of the Parties. This Agreement may not be contradicted by evidence of any prior or contemporaneous statements or agreements. No Party has been induced to enter into this Agreement by, nor is any Party relying on, any representation, understanding, agreement, commitment or warranty outside those expressly set forth in this Agreement.
