ASSIGNMENT

THIS ASSIGNMENT is made and entered effective as of April 3, 2020.

WHEREAS, Lynda Sue Cole, an individual with an address at 2800 Neilson Way, #1015, Santa Monica, CA, 90405, USA (hereinafter referred to as "Assignor"), believes herself to be an inventor or co-inventor of the new and useful inventions as disclosed and claimed in the U.S. and Foreign Application Nos. listed in Schedule A;

WHEREAS, DMS-Service LLC, a Nevada limited liability company, having an address at 11845 W. Olympic Blvd., STE 880W, Los Angeles, CA, 90064, USA (hereinafter referred to as "Assignee"), desires to acquire by formal, recordable assignment, the entire right, title, and interest in and to the invention, the application(s), and any Letters Patent(s) that might be granted for the inventions listed in Schedule A in the United States and throughout the world; including any and all divisional, continuation, continuation-in-part, reexamination or reissue applications;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor has sold, assigned, and transferred, and by these present does hereby sell, assign, and transfer, unto Assignee, the entire right, title, and interest in and to the invention, the application(s), and any Patent(s) that might be granted for the invention in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign Patent applications any priority rights to which such applications are entitled, pursuant to international conventions, treaties, or otherwise, including the right to sue for any and all past infringement(s) of any or all of the foregoing Patent(s).

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, she and her legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing, or enforcing Letters Patents in the United States and throughout the world for the invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to the invention, the application(s), and any Letters Patent(s) granted for the invention in the United States and throughout the world. In addition, Assignor does hereby make, constitute, and appoint Assignee, or any officer or agent of Assignee, as Assignor's true and lawful attorney-in-fact, with power of substitution, to enforce every such contract, permit, license, claim, demand, or right, with respect to the Assigned invention, application(s), and any Patent(s) granted for the invention in the United States and throughout the world, and to do any and all things necessary to be done as fully and effectually as Assignor might or could do, and hereby ratifies all that said attorney-in-fact shall lawfully do or cause to be done by virtue hereof. This power of attorney shall be irrevocable.

Assignor represents and warrants that she has not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment. Assignor further represents and warrants that she does not know of any improvements to the invention, other than what has been disclosed in the Assigned Patent and/or has been communicated to the patent attorney(s) in prosecuting said Assigned Patent. Assignor has not filed any patent applications relating in any way to the Assigned Patent, other than what has been disclosed in said Assigned Patent, and agree not to do so.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patents granted for the invention, whether on the applications or on any subsequently filed division, continuation, continuation-in-part, or reissue application, to Assignee, or its successors or assigns, as the assignee of the entire interest in the invention.
