PATENT ASSIGNMENT

WHEREAS, we, PARK, Jun Gil, BAE, Jung Yul, MOON, Seong Sik and JEONG, In Chul (hereinafter referred to as "Inventors"), jointly have made and invented the certain invention or inventions and/or design or designs (collectively, "the Invention") that are the subject matter of the patent(s), design registration(s), utility model(s), and/or applications for any of the foregoing identified in Schedule "A" attached hereto (together with the Invention, collectively referred to hereinafter as "the Assigned Property"), and

WHEREAS, KYUNG DONG NAVIEN CO., LTD., a corporation organized under the laws of the Republic of Korea, having an address at 95, Suworam-gil, Seotan-myeon, Pyeongtaek-si, Gyeonggi-do 17704, Republic of Korea (hereinafter referred to as "Assignee"), is desirous of acquiring the entire right, title and interest in and to Assigned Property.

NOW, THEREFORE, for and in consideration of One Dollar (\$1.00), and other good and valuable consideration, the receipt and sufficiency of which are hereby jointly and severally acknowledged by Inventors, the parties hereto agree as follows:

1. Inventors jointly and severally hereby sell, assign, convey, and transfer to Assignee, its successors and assigns, Inventors' entire right, title and interest in and to:
 - (i) the Invention and worldwide rights therein;
 - (ii) the Assigned Property;
 - (iii) all patents which shall issue for the Invention including, without limitation, the Assigned Property identified in Schedule "A" and any and all provisionals, nonprovisionals, divisionals, continuations, continuations-in-part, and/or any other applications therefor as well as any and all reissues, reexaminations, renewals and extensions thereof, for the United States, its territories and possessions and all foreign countries, including the exclusive right to file and prosecute corresponding patent applications on and for the Invention in the United States and in any and all foreign countries, and to claim priority under any and all treaties and conventions to which the United States of America is signatory including the Patent Cooperation Treaty and the Paris Convention for the Protection of Industrial Property for such corresponding applications, or any divisional, continuation, continuation-in-part or substitution thereof, the same to be held and enjoyed by Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Inventor, had this assignment not been made; and
 - (iv) all rights to past, present and future claims of any kind including, without limitation, the right to sue for patent infringement and to recover and retain any and all damages paid or received as a result of the litigation, settlement, and/or pursuit of such claims.

2. Inventors jointly and severally covenant and agree that Inventors will, at any time upon the request and at the expense of Assignee, execute and deliver any and all papers and do all affirmative and lawful acts that may be necessary or desirable, in the opinion and sole discretion of Assignee, to enable and assist Assignee to:
 - (a) obtain patents, both domestic and foreign, on and for the Invention, including, without limitation, reviewing and executing any and all patent applications, assignments, declarations, powers of attorney, affidavits, and any other papers and documents in connection with the Invention, the Assigned Property, and the patents and patent applications sold, assigned and transferred under Section 1 of this Assignment, that Assignee may deem necessary or prudent to perfect such patent rights and to obtain and maintain such patents and patent applications;
 - (b) establish, maintain and secure title in and for Assignee, its successors and assigns, to the Invention, the Assigned Property, the patents and patent applications sold, assigned and transferred under Section 1 of this Assignment, including making such title lawful public record, whether through recordation with the United States Patent and Trademark Office, foreign patent office(s) or other means; and
 - (c) defend, enforce, establish or otherwise preserve the validity of the Assigned Property and patents and patent applications sold, assigned and transferred under Section 1 of this Assignment against any and all infringers, and perform such other acts as are necessary to give full force and effect to this Assignment, including, without limitation, testifying in any and all legal proceedings, and making all lawful oaths and declarations, which Assignee, its successors and assigns, deem necessary or prudent.

3. Inventors jointly and severally hereby represent and warrant that Inventors are the sole lawful owner of all rights in and to the Assigned Property; that no assignment, mortgage, sale, license, pledge, encumbrance or alienation of the Assigned Property or the patents and patent applications sold, assigned and transferred under Section 1 has been

or will be made or entered into which would conflict with this assignment and sale; and that he or she has the full legal right and authority to assign and convey the entire right, title and interest herein assigned and sold. Inventors further jointly and severally represent and warrant that Inventors have not executed, and will not execute, any other agreement(s) in conflict herewith.

4. Inventors jointly and severally hereby irrevocably constitute and appoint Assignee and any officer or agent thereof, with full power of substitution, as his or her and their true and lawful attorney-in-fact, with full irrevocable power and authority in his or her and their name to take any and all action and to execute thereafter any and all documents and instruments which Assignee deems necessary or desirable to accomplish the purposes of this Assignment. Inventors jointly and severally further grant Assignee and its duly authorized attorneys and agents the power to insert on this Assignment any further identification which may be necessary or prudent in order to comply with the rules of the United States Patent and Trademark Office, any foreign patent office, or any other legal entity or body whatsoever, for recordation and enforcement of this Assignment. Inventors jointly and severally authorize Assignee, its attorneys and agents to prosecute the application(s) listed in Schedule "A" and, if and as desired, to update the information concerning the application(s) listed in Schedule "A" including inserting the application serial numbers and filing dates, when known, into Schedule "A."

5. This Assignment shall be binding upon Inventors, his or her and their heirs, executors, agents, successors, and assigns.

6. This Assignment may be executed in multiple counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Facsimile and scanned signatures sent by e-mail shall be considered as original signatures. The recitals and Schedule "A" of this Assignment are hereby incorporated into and made a part of this Assignment.
