WHEREAS, the undersigned Inventors:

- (1) Daniil Viktorovich Egranov, a resident of Houston, Texas, United States,
- (2) Donald Edward Banks, a resident of San Jose, California, United States,
- (3) Stuart Yoder, a resident of Round Rock, Texas, United States,

have invented certain new and useful improvements in:

**SYSTEM, DEVICES AND/OR PROCESSES FOR SECURE TRANSFER OF CRYPTOGRAPHIC  
CONTROL OF COMPUTING PLATFORM**

**U.S. Patent Application No. 17/000,148 (Filed August 21, 2020)**

and have executed a declaration for an application for a United States Patent disclosing and identifying the invention, the last completed declaration being executed on August 19, 2020.

WHEREAS Arm Limited, a corporation organized and existing under the laws of the United Kingdom, having a place of business at 110 Foulbourn Road, Cambridge CB1 9NJ, United Kingdom and Arm Cloud Technology, Inc., a corporation organized and existing under the laws of the United States, having a place of business at 150 Rose Orchard Way, San Jose, CA, United States of America, 95134-1358 (hereinafter jointly "Assignees") wish to acquire the entire right, title and interest in and to said application and the invention disclosed therein, and in and to all embodiments of the invention, heretofore conceived, made or discovered jointly or severally by said Inventors (all collectively hereinafter termed "said invention"), and in and to any and all patents, certificates of invention and other forms of protection thereon (hereinafter termed "patents") applied for or granted in the United States and/or other countries.

NOW THEREFORE, in consideration of Ten Dollars (\$10.00) and other good and valuable consideration from said Assignees, the receipt-in-full and sufficiency of which are hereby acknowledged by said Inventor:

1. Said Inventor does hereby sell, assign, transfer and convey unto said Assignees, the entire right, title and interest (a) in and to said application and said invention; (b) in and to all rights to apply in any and all countries of the world for patents, certificates of inventions or other governmental grants on said invention, including the right to apply for patents pursuant to the International Convention for the Protection of Industrial Property or pursuant to any other convention, treaty, agreement or understanding; (c) in and to any and all applications filed and any and all patents, certificates of inventions or other governmental grants granted on said invention in the United States or any other country, including each and every application filed and each and every patent granted on any application which is a division, substitution, or continuation of any of said applications; (d) in and to each and every reissue or extension of any of said patents; and (e) in and to each and every patent claim resulting from a re-examination certificate for any and all of said patents.

2. Said Inventor hereby covenants and agrees to cooperate with said Assignees to enable said Assignees to enjoy to the fullest extent the right, title and interest herein conveyed in the United States and other countries. Such cooperation by said Inventor shall include prompt production of pertinent facts and documents, giving of testimony, executing of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed essential by said Assignees (a) for perfecting in said Assignees the right, title and interest herein conveyed; (b) for complying with any duty of disclosure; (c) for prosecuting any of said applications; (d) for filing and prosecuting substitute, divisional, continuing or additional applications covering said invention; (e) for filing and prosecuting applications for reissue of any of said patents; (f) for interference or other priority proceedings involving said invention; and (g) for legal proceedings involving said invention and any applications therefor and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, reexamination proceedings, compulsory licensing proceedings, infringement actions and court actions; provided, however, that the expense incurred by said Inventor in providing such cooperation shall be paid for by said Assignees.

3. The terms and covenants of this Assignment shall inure to the benefit of said Assignees, its successors, assigns and other legal representatives, and shall be binding upon said Inventor and said Inventor's legal representatives.

4. Said Inventor hereby warrants and represents that said Inventor has not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

5. Said Inventor understands and agrees that Assignee's attorneys Berkeley Law and Technology Group LLP have represented only Assignees and will continue to represent only Assignees with respect to this invention.
