PATENT ASSIGNMENT AGREEMENT

THIS PATENT ASSIGNMENT AGREEMENT ("Patent Assignment"), effective as of July 31, 2020 (the "Effective Date"), by and between L3 TECHNOLOGIES, INC., a Delaware corporation ("Assignor"), with its principal office at 600 Third Avenue, New York, NY 10016 and EOTECH, LLC, a Michigan limited liability company ("Assignee").

WHEREAS, Assignor owns the patents and patent applications identified more fully in the attached Schedule A (collectively, the "Assigned Patents") and the invention(s) claimed in the Assigned Patents (the "Inventions");

WHEREAS, the Assignor and Assignee, as successor-in-interest to and assignee of Project Echo Holdings, LLC, a Michigan limited liability company, are parties to that certain Asset Purchase Agreement, dated March 20, 2020, as amended (the "Sale Agreement"), pursuant to which the Assignor transferred, sold and conveyed to Assignee certain of the assets of the Assignor, including the Inventions and Assigned Patents; and

WHEREAS, the Assignor wishes to assign the Inventions and Assigned Patents to Assignee, and Assignee wishes to acquire the Inventions and Assigned Patents from the Assignor.

NOW, THEREFORE, in consideration of the premises set forth above and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged and pursuant to the Sale Agreement:

Assignor hereby sells, conveys, transfers and assigns to Assignee and its successors, assigns, and legal representatives, all of such Assignor's right, title and interest in and throughout the world in and to the Inventions, together with Assignor's entire right, title and interest in and to the Assigned Patents, and such other patents and patent applications as may issue thereon or claim priority thereto under United States law or international convention, including but not limited to non-provisionals, continuations, continuations-in-part, divisionals, reissues, reexaminations, reviews, extensions, and substitutions of patents, free and clear of any Liens (as such term is defined in the Sale Agreement), including the right to any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing, and any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages, to the full end of the term for which such patents may be granted as fully and entirely as the same would have been held by Assignor had this assignment and sale not been made.

Assignor does hereby authorize the Director of the United States Patent & Trademark Office, and the empowered officials of all other governments whose duty it is

to record patents, applications and title thereto, to record the Assigned Patents and title thereto as the property of Assignee, its successors, assigns, or legal representatives in accordance with the terms of this instrument.

Assignor does hereby further authorize and request the Director of the United States Patent and Trademark Office and the empowered officials of all other governments to issue such Assigned Patents or patents as shall be granted upon the Assigned Patents, or applications based thereon, to Assignee, its successors, assigns, or legal representatives.

Assignor agrees that upon request it will, at any time at Assignee's expense, execute and deliver all necessary documentation which may be reasonably necessary to further document and record the assignment of the Assigned Patents made hereby.

All representations and warranties of the Assignor in the Sale Agreement are hereby incorporated into this Patent Assignment. Assignor will warrant and defend the sale, conveyance, transfer and assignment of the Assigned Patents to Assignee against all persons.

Assignor and Assignee also agree that multiple copies of this Assignment may be executed, each of which shall be deemed an original, and each of which shall be valid and binding upon the Assignor and Assignee.
