Wells Fargo Agreement Regarding Trade Secrets, Confidential Information, And Assignment Of Inventions

WELLS
FARGO

I. Introduction

In consideration for my becoming employed and compensated by a Wells Fargo company and/or any of its past, present, and future parent companies, subsidiaries, predecessors, successors, affiliates, and acquisitions (collectively "the Company"), I agree as follows:

[REDACTED]

[REDACTED] I also acknowledge that if in the course of my employment I develop Inventions (as defined herein), I agree to assign these inventions to the Company.

[REDACTED]

V. Assignment Of Inventions

The categories of inventions that are subject to this assignment are: (1) all inventions that relate at the time of conception or reduction to practice of the invention to the Company's business, or actual or demonstrably anticipated research or development of the Company whether or not I made, conceived or first reduced the inventions to practice during normal working hours; and (2) all inventions involving the use of any time, material, information, or facility of the Company. I acknowledge and agree that all inventions and all worldwide intellectual property rights therein are owned by the Company. All intellectual property rights in the inventions shall vest in the Company on the date such inventions are created, conceived, reduced to practice, actually or constructively, or reduced to a tangible medium of expression, whichever occurs first.

If, and to the extent that, all intellectual property rights in any inventions do not vest in the Company, I hereby irrevocably grant and assign to the Company without reservation, all of my worldwide ownership rights, title and interest in and to all inventions and all present and future intellectual property rights in such inventions, and irrevocably waive all moral rights in, and other intellectual property rights to, all inventions.

I further agree, without charge and at the Company's expense, to give the Company all assistance it reasonably requires to evidence, establish, maintain, perfect, protect, and use the rights to the inventions I have assigned to it. In particular, but without limitation, I agree to sign all documents, supply all information, and provide all written or oral testimony that the Company may deem necessary or desirable to: (i) transfer or record the transfer of my entire right, title, and interest in the assigned inventions; (ii) enable the Company to obtain patent protection for such inventions anywhere in the world; and (iii) protect and enforce Company's rights in the inventions and the intellectual property rights therein. Notwithstanding the foregoing, I hereby irrevocably appoint Wells Fargo as attorney in fact (coupled with an interest) to execute any such documents.
