(hereinafter "ASSIGNEE"), a corporation organized and existing under the laws of the state of Delaware and having a usual place of business at One Kendall Square, Building 1400, Cambridge, MA 02139, desires to acquire, has acquired, and hereby does acquire all right, title and interest throughout the world in and to the Inventions, in accordance with the terms and conditions of this Assignment;

NOW, THEREFORE, to all whom it may concern be it known that for and in consideration of said agreements and of other good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNOR has sold, assigned and transferred and by these presents does hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns, and legal representatives, ASSIGNOR'S entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to the Inventions described in said applications, together with ASSIGNOR'S entire right, title and interest in and to said applications and such Letters Patent as may issue thereon or claim priority thereto under United States law, or foreign or international convention, agreements, treaties or laws; including but not limited to all patent applications, provisionals, non-provisionals, international applications, national stage applications and foreign equivalents, direct national applications, divisionals, continuations, and continuations-in-part; all Letters Patents issuing from any of the foregoing applications; all substitutions, reissues, re-examinations, reviews, renewals, and extensions thereof; and all registrations, confirmations, supplementary protection certificates, and certifications of invention; and any right, title and interest ASSIGNOR may have in provisional applications to which any such applications claims priority; said Inventions, applications, and Letters Patents to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which said Letters Patents may be granted as fully and entirely as the same would have been held by ASSIGNOR had this assignment and sale not been made; ASSIGNOR hereby conveys all of ASSIGNOR'S rights arising under or pursuant to any and all United States laws, and any and all foreign or international convention, agreements, treaties or laws relating to the protection of industrial property by filing any such applications for Letters Patent, including but not limited to any cause(s) of action and damages accruing prior to this assignment. ASSIGNOR hereby acknowledges that this assignment, being of ASSIGNOR'S entire right, title and interest in and to said Invention(s), carries with it the right in ASSIGNEE to apply for and obtain from competent authorities in all countries of the world any and all Letters Patents by attorneys and agents of ASSIGNEE's selection and the right to procure the grant of all Letters Patents to ASSIGNEE in its own name as assignee of ASSIGNOR'S entire right, title and interest therein;

AND, ASSIGNOR hereby further agrees for ASSIGNOR and ASSIGNOR'S executors and administrators to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid Invention(s) to said ASSIGNEE, its successors, assigns, and legal representatives, but at its or their expense and charges, including, without limitation, the execution of provisional, non-provisional, divisional, continuation, continuation-in-part, reissue, re-examination or corresponding foreign or international patent applications;
