NUNC PRO TUNC ASSIGNMENT

THIS ASSIGNMENT, effective as of September 30, 2020 (hereinafter referred to as the "Effective Date"), made by **FIBER DYNAMICS, INC.**, a corporation of the state of Delaware ("Assignor"), and **FITESA HIGH POINT, INC.**, ("Assignee"), a corporation of the state of Delaware, supplements and replaces the Assignment previously executed on September 30, 2020 in connection with the patents and/or patent applications identified herein, in and to all corresponding patents and/or patent applications worldwide, and in and to the inventions represented thereby (all hereinafter referred to as the "Patents");

WITNESSETH: That,

Whereas, as shown by the records of the United States Patent and Trademark Office, Assignor has previously acquired right, title, and interest in and to the following:

United States Patent No. 9,498,939;

United States Patent No. 10,357,949; and

Canada Patent No. 2882091,

all titled "MELTBLOWN-SPUNBONDED-MELTBLOWN LAMINATE," and, to the inventions represented thereby (all herein referred to herein as the "Patents"); and

Whereas Assignee, is desirous of acquiring Assignor's entire right, title, and interest to said Patents and in and to the inventions represented thereby; and

WHEREAS, an Assignment for the entire right, title, and interest in and to said Patents to Assignee was previously executed by Assignor and Assignee on September 30, 2020. Said Assignment, without any deceptive intent, erroneously identified the Patents as "United States Patent No. 9,498,939 and Canadian Patent No. 10,357,949." The Patents should have been identified as "United States Patent No. 9,498,939; United States Patent No. 10,357,949; and Canada Patent No. 2882091." As such, this Nunc Pro Tunc Assignment supplements and replaces the Assignment executed on September 30, 2020 so as to confirm the assignment of the Patents with an Effective Date as of September 30, 2020;

NOW, THEREFORE, To Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor hereby acknowledge and confirm that effective September 30, 2020, Assignor sold and by these presents do hereby sell, assign, transfer, and convey unto the said Assignee, its successors and assigns, Assignor's entire right, title, and interest in and to the said invention

and Patents, and in and to any and all continuations, continuations-in-part, or divisions thereof, and in and to any and all Letters Patent of the United States of America and all foreign countries or reissues thereof which may be granted therefor or thereon, for the full end of the term for which said Letters Patent may be granted, the same to be held and enjoyed by said assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by us if this assignment and sale had not been made.

The Assignor further covenants and agrees that, at the time of the execution and delivery of these presents, the Assignor possesses full title to its entire right, title, and interest of the inventions and Patents thereon as earlier identified, and that it has the unencumbered right and authority to make this assignment.

From time to time after the date hereof, at the request of either party hereto, and at the expense of the party so requesting, each of the parties shall execute and deliver to such requesting party such documents and take such action as such requesting party may request in order to consummate more effectively the transactions contemplated hereby.

IN WITNESS WHEREOF, the Assignors have deemed this Assignment was effective as of September 30, 2020.
