ASSIGNMENT OF PATENTS

This Assignment of Patents is effective as of the 28th day of July 2017 by and between Windwrap Inc. ("Assignor") and Windwrap LLC ("Assignee").

WHEREAS, Assignor owns certain right, title and interest in and to the patents identified in Schedule A, attached hereto and incorporated herein by reference (the "Patents"); and

WHEREAS, Assignee is desirous of acquiring the rights in Assignor's Patents.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee, each intending to be legally bound, hereby agree as follows:

1. Assignor does hereby sell, assign, transfer and set over to Assignee, and Assignee hereby accepts Assignor's entire right, title and interest in and to the Patents, the same to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives, to the end of the terms for which patents are granted or renewed as fully and entirely as the same would have been held or enjoyed by Assignor if this Assignment of Patents (this "Assignment") had not been made, including, but not limited to, (i) all patents, patent applications, reissues, divisionals, continuations, continuations-in-part, renewals, reexamination certificates claiming priority to the Patents and (ii) all rights and claims, including claims for damages, lost profits, royalties and benefits arising because of any past, present and future infringements, misappropriations or other violations of the Patents.

2. Assignor hereby authorizes and requests the Commissioner for Patents of the United States Patent and Trademark Office and any official of any other country, whose duty it is to issue patents or other evidence or forms of industrial property protection on applications as aforesaid, to record and register this Assignment upon request by Assignee.

3. This Assignment shall be governed, construed and enforced in accordance with the internal substantive laws of the State of Illinois (without regard to the laws of conflict that might otherwise apply) as to all matters, including matters of validity, construction, effect, performance and remedies.

4. This Assignment may be executed in several counterparts (including by means of facsimile or electronic transmission in portable document format (PDF)), each of which shall be deemed an original and all of which shall constitute one and the same instrument, and shall become effective when counterparts have been signed by each of the parties and delivered to the other parties; it being understood that all parties need not sign the same counterparts.
