ASSIGNMENT AND AGREEMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, I,

THAI HO of Scottsdale Arizona (Assignor)

have sold, assigned, and transferred, and do hereby sell, assign, and transfer unto **MAYO FOUNDATION FOR MEDICAL EDUCATION AND RESEARCH** (Assignee), a charitable corporation of the State of Minnesota, having a place of business at 200 First Street SW, Rochester, Minnesota 55905, United States of America, and its successors, assigns, and legal representatives, the entire right, title, and interest in and to certain invention(s) entitled **MOT CELLS AS A THERAPEUTIC SCREENING TOOL FOR REGULATORY T-CELL ACTIVITY**, which is described, illustrated, and claimed in U.S. Application No. 17/256,592 filed on December 28, 2020, which is a national stage filing under 35 U.S.C. §371 of International Application No. PCT/US2019/052984, filed September 25, 2019, which is a PCT patent application of and claims priority to U.S. Provisional Patent Application Serial Number 62/738,043 filed on 28 September 2018, together with the entire right, title and interest in and to the US application, and in and to any application for patent filed in any country claiming priority to, claiming the invention described in, or otherwise based on the US application, and in and to any continuation, division, reissue, reexamination, extension, renewal, or substitute thereof, and in and to any patent which may grant from such application(s).

I hereby authorize and request all government authorities in any country to issue patent(s) upon the aforesaid application, continuation, division, reissue, reexamination, extension, renewal, or substitute, to Assignee, for the sole use and behalf of Assignee, its successors, assigns, and legal representatives, to the full end of the term for which the patent(s) may be granted, the same as they would have been held and enjoyed by myself had this assignment not been made.

I agree that, when requested, I will, without charge to Assignee, but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable, or convenient for securing and maintaining patents for the invention(s) in any and all countries and for vesting title thereto in Assignee, its successors, assigns, and legal representatives or nominees.

I covenant with Assignee, its successors, assigns, and legal representatives that the interest and property hereby conveyed is free from all prior assignment, grant, mortgage, license, or other encumbrance.
