I/we hereby authorize the issuance to said assignee of any and all Patents as the assignee of all my/our right, title, and interest in and to the same, for his sole use and benefit; and for the use and benefit of his successor, assigns or legal representatives, to the full end of the term for which said Patents may be granted, as fully and entirely as the same would have been held by me/we had this assignment not been made;

I/we hereby undertake to execute without further consideration all documents that may be required to obtain said any and all Patents for the said invention;

I/we hereby state that I/we have reviewed and understand the contents of the above identified application(s), including the claims;

I/we acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application;

The above-identified application(s) was(were) made or authorized to be made by me/us;

I/we believe that I am/we are the original inventor(s) of a claimed invention in the application(s) cited above; and

I/we hereby acknowledge that any willful false statement made in this document is punishable in the United States under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.

I/we hereby grant to said assignee, its successors, assigns, nominees or other legal representatives, including its patent agents and attorneys, the power to insert on this document any further information which may be necessary or desirable in order to place this document in compliance for recordation, including the filing date and the application number of any of the aforementioned applications when known.
